16 cities across Europe The book presents several case studies ranging from Spain to Russia and from Scandinavia to Slovenia and offers new pathways into understanding the implications of artists residence and activities in contemporary cities Apart from presenting less obvious expressions of artists involvement in urban transformations such as their participation in urban planning or grass root urban movements the volume explores the ambivalence of artists interactions with cities Particular chapters test several divergent narratives of artistic creatives as inspirers and instigators of urban changes pioneers of gentrification contesters and resisters of neoliberal urban policies or mere indicators of transformations inspired by other actors instrumentalized by public and private stakeholders *Catalogue of Copyright Entries* ,1941
