### Occupy Three Inquiries In Disobedience Trios:

*Citizenship, Activism and the City* Patricia Burke Wood, 2017-04-21 This book examines post crisis protest as a global yet intensely local movement It reframes the theorization of both protest and of the city in local and global contexts It bridges four key ideas human rights discourse and citizenship practice political economy and social geography approaches to understandings of the city post political literature and the history of politics and protest and Marxist and anarchist ideas about the time and space of politics This book adopts a unique approach to provide new theoretical insights and challenges to post political thinking

*Visual Protest, Viral Images, and Virtual Participation* Nicole A. Schneider, 2025-06-30 This interdisciplinary study sees press photographs of the BLM Movement in the US as agents for Black liberation Close reading both the images and theoretical considerations on Blackness photography and the often intangible articulations of racism in today's society the book focuses on the work the photographs do for the movement as they politically garner attention and create discursive places historically unsettle seemingly fixed narratives about the African American past and virtually establish room for digital activist debate Based on Azoulay's event of photography and Rancière's politics of aesthetics it builds the theory of an attentive reading of photography and addresses the larger frameworks of photography as event in anti racist considerations In their political aesthetic and performative dimensions these photographs negotiate the current matter of Black lives in the United States and articulate ontological dimensions of Blackness as political struggle and affirmative position They become mobile and material discursive places that lift the protested debates into wider fields of consideration and visibility complicating notions of society politics and interaction

**Demonstrative Reproduktion** Johannes Diesing, 2019-10-09 Die Occupy Bewegung verbreitete sich ab Herbst 2011 global und bildete damit den Höhepunkt eines protestreichen Jahres Anhand der Platzbesetzungen in New York und London arbeitet der Band die neue Form des politischen Handelns heraus die aus der im kollektiven Experimentieren entstandene Praxis der Demonstrativen Reproduktion Diese gewann für die Aktivistinnen und Aktivisten der Bewegung eine größere Bedeutung für ihren politischen Protest als konkrete Forderungen an Regierung Parteien und Wirtschaft
