OECD

Regional Outlook 2016 Productive Regions for Inclusive Societies OECD,2016-10-11 The OECD Regional Outlook 2016 examines the widening productivity gap across regions within countries and the implications of these trends for the well being of people living in different places *The New World of Economics* Richard B. McKenzie, Gordon Tullock,2012-05-16 The New World of Economics 6th edition by Richard McKenzie and Gordon Tullock represents a revival of a classic text that when it was first published changed substantially the way economics would be taught at the introductory and advanced levels of economics for all time In a very real sense many contemporary general audience economics books that seek to apply the economic way of thinking to an unbounded array of social issues have grown out of the disciplinary tradition established by earlier editions of The New World of Economics This new edition of The New World will expose new generations of economics students to how McKenzie and Tullock have applied in a lucid manner a relatively small number of economic concepts and principles to a cluster of topics that have been in the book from its first release and to a larger number of topics that are new to this edition with the focus of the new topics on showing students how economic thinking can be applied to business decision making This edition continues the book's tradition of taking contrarian stances on important economic issues Economics professors have long reported that The New World is a rare book in that students will read it without being required to do so
