Deforestation in Tanzania Salome B. Misana,1999

Contemporary Logistics in China 2025 Zhilun Jiao,Xiaofan

Wu,Jianhua Xiao,Binglian Liu,Na Li,Yu Gong,2025-08-13 This annual report aims to present a timely portrait of the rapid growth of China's logistics market and the status quo of its logistics industry. It provides an in-depth analysis of critical issues involved in the ongoing dynamic and multi-faceted development and serves as a valuable reference resource for interested readers in the academic and professional fields. The book starts with an in-depth overview of the achievements and prospects of China's logistics development in the ten years of the Belt and Road Initiative and then covers macro factors related to logistics technologies and facilities, region-specific policies and plans, industry-wide transformation in transport, manufacturing, commerce, and agriculture. The book also addresses the current state and challenges of logistics digitization in China and trends from the aspects of continuous promotion upstream and downstream, industry collaboration, intelligent transportation infrastructure, application of logistics big models, and government support. Furthermore, the book offers insights into the development and future prospects of China's cross-border e-commerce logistics. The translation was done with the help of artificial intelligence. A subsequent human revision was done primarily in terms of content.

Study on the Development of Transboundary Natural Resource Management Areas in Southern Africa John Griffin, 1999 The 9th Annual International Seminar on Trends in Science and Science Education (AISTSSE) 2022, 2023-10-04

This is the ninth time we are hosting this seminar and we are proud to inform you that this seminar is an annual event in our calendar and has been held every year since 2014. This year for the third year we are holding it via Zoom meeting online meeting due to Covid 19 pandemic. We are inviting internationally recognized speakers from several countries to share their latest discoveries in the fields of Biology, Chemistry, Physics, Mathematics, and Science Education. Well-known researchers in science and science education will share their experiences and knowledge so that we can stay up to date with the latest information. This is one of the goals of this seminar. As science researchers, we realize the importance of information exchange among us. The new information enlightens our minds and gives us ideas on what to do next in our research and how to do it. This new information often becomes the foundation for our next project in particular and sets the research trends for the upcoming year in general. Information exchange also keeps us updated, allowing us to give and receive suggestions and critiques that will lead to better results. Therefore, we need a forum where we can share and exchange information. Seminars, conferences, and other scientific gatherings are the media through which we can do this. Organizer: Faculty of Mathematics and Natural Sciences of Universitas Negeri Medan. Where: Web Seminar via Zoom Meeting. When: Tuesday 8th November 2022. Theme: The development of industrial-based research in science and science education to improve research innovation strategy. Topics: AISTSSE 2020 included following topics: 1. Mathematics Science 2. Mathematics
