Racism: A Very Short Introduction Ali Rattansi,2020-03-26 There is often a demand for a short sharp definition of racism for example as captured in the popular formula Power Prejudice Racism But in reality racism is a complex multidimensional phenomenon that cannot be captured by such definitions In our world today there are a variety of racisms at play and it is necessary to distinguish between issues such as individual prejudice and systemic racisms which entrench racialized inequalities over time This Very Short Introduction explores the history of racial ideas and a wide range of racisms biological cultural colour blind and structural and illuminates issues that have been the subject of recent debates Is Islamophobia a form of racism Is there a new antisemitism Why has whiteness become an important source of debate What is Intersectionality What is unconscious or implicit bias and what is its importance in understanding racial discrimination Ali Rattansi tackles these questions and also shows why African Americans and other ethnic minorities in the USA and Europe continue to suffer from discrimination today that results in ongoing disadvantage in these white dominant societies Finally he explains why there has been a resurgence of national populist and far right movements and explores their implications for the future of racism

Multicultural Citizenship Jean-François Caron,François Boucher,2024-11-29 Multicultural Citizenship Legacy and Critique allows the philosopher an opportunity to consider the evolution and transformation of Will Kymlicka's theories from Multicultural Citizenship A Liberal Theory of Minority Rights Canonical in the field of multiculturalism Will Kymlicka's work developed an original way of recognizing and accommodating ethnic groups and national minorities through liberal democratic principles

This new volume brings together expert scholars to evaluate the impact of Kymlicka's book on their own views and the field's general progression over the past three decades and brings Kymlicka to face new questions challenging multiculturalism and re-evaluate the main ideas of his original theory by reflecting on its development. Through engagement with the contributors' chapters, Kymlicka ends this edited collection with proposals for new ways of understanding multiculturalism at a time of rising anti-immigration populism and nationalist movements. This book offers a modern outlook on multiculturalism with contributions from a diverse group of authors as well as Will Kymlicka himself and will be of great interest to scholars and students of migration, nationalism, minority rights, sociology, law and politics.

The Return of the Native Jan Willem Duyvendak, Josip Kešić, Timothy Stacey, 2023. An in-depth analysis that demonstrates how and why there has been a resurgence of nativist logic. It was once thought that liberalism and globalization would consign nativist logics to the fringes of societies and eventually to history. But if it ever left nativism has well and truly returned, spreading across nations across the political spectrum and from the fringes back into the mainstream. In *The Return of the Native* Jan Willem Duyvendak, Josip Kesic and Timothy Stacey explore how nativist logics have infiltrated liberal settings and discourses primarily in the Netherlands as well as other countries with strong liberal traditions like the US and France. They deconstruct and explain the underlying logic of nativist narratives and show how these narratives are emerging in the discourses of secularism, a religious nativism that problematizes Islam and Muslims, racism, a racial nativism that problematizes black anti-racism, populism, a populist nativism that problematizes elites and left-wing politics, a left nativism that sees religious, racial and populist nativists themselves as a threat to national culture. By moving systematically through these key iterations of nativism, the authors show how liberal ideas themselves are becoming tools for claiming that some people do not belong to the nation. A unique analysis of the most fundamental political transformation of our days, this book illuminates the resurgence of the figure of the native who claims the country at the expense of those perceived as foreign.

Ariel, 2018. *Multiculturalism and magic realism? Between fiction and reality* Sylvia Hadjetian, 2008-04-14 Thesis M.A. from the year 2005 in the subject English Language and Literature Studies Literature grade 2.0 University of Regensburg Anglistik language English abstract. Since the 1970s there has been an increasing concern with the impact of colonialism and postcolonialism on British identities and culture and the influence that the former British Empire had and still has on people in the former colonies and in Britain today. Novels like Salman Rushdie's *Midnight's Children* or *The Satanic Verses*, Hanif Kureishi's *The Buddha of Suburbia*, Meera Syal's *Anita* and *Me*, Timothy Mo's *Sour Sweet Sam*, Selvon's *The Lonely Londoners* and Monica Ali's *Brick Lane*, along with films like *Bend it like Beckham* or TV series like *The Kumars at No 42* and *Da Ali G Show* exemplify this rather new phenomenon and its worldwide success. They are representative of a large group of multicultural novels and productions created during the last few decades. Although multiculturalism is not new in the media, there has been a special boom of writers of the empire within during the last ten years.
