Transition to Nursing: Preparation for Practice Bill Whitehead, Michelle Brown, 2017-12-16

How do you think like a staff nurse? What behaviour and level of work is needed to be awarded your degree? How will you adapt to working as a professional and working in a team? This book is for you if you're in the final stage of a pre-registration nursing course or if you are making the transition to becoming a registered nurse. It provides you with a toolkit of advice to help you deal with challenges you'll face and prepare you with an understanding of what the university and NMC will be looking for. Clear advice is given on the academic skills you will need, how to face the rigours of the final year and what you need to demonstrate in your behaviour and placements. Professional issues covered include using evidence in practice, managing a caseload and how far to fit into or question workplace culture. The features of this book include: Guidance enriched by the latest research and expert knowledge of this transition period. Reflective learning boxes to help you identify how you can prepare. Case studies raising issues from student and registered nurses' experience going through this transition. Short chapters enable quick learning to support you now. Knowledge that will build your confidence and enhance your ability to fit into your first job. This book is recommended reading for all final year nursing students and nurses new to the profession. Packed with practical detail and the supporting evidence, it's obvious the authors are anchored in the reality of today's complex healthcare environments. The journey from student to registered nurse is more like a vertical ladder than a learning curve. This book helps you climb up every rung of the way. This book doesn't just describe the process of transition; it gives advice for both academic and practice-based achievement, preparing you to think and practise as a staff nurse. It's a resource you can either dip into as needed or read from cover to cover. In addition, there's an evidence-based preceptorship toolkit for transition, which is a useful tool for employers to devise an effective system of support. The experienced nurse would also benefit from this as a reference tool to support their students and preceptees and a reminder of the demands placed on them.
