Those can be the words of a third grader or just as easily the words of an adult. In our hurry up world of bits and bytes and the need for instant gratification the sad and simple truth is that people don't read as much as they used to and more tragic they understand what they read far less than in the past. In this practical hands on Guide the author a Master Teacher with more than thirty five years of practical success teaching both children and adults of all ages shares her Ideas on teaching reading comprehension strategies. The underlying message she delivers is Comprehensive Strategies are important because Reading is an Active not a Passive Process. Reading can seem incredibly complicated. It involves not only making sense of the squiggles on a page deciphering the alphabetic code and figuring out the words but reading also entails giving meaning to understanding and thereby enjoying what we read. Reading comprehension is absolutely critical to communication whether it involves a doctor healing a patient a lawyer presenting an argument in court an astronaut needing to know how to repair a malfunction when he is thousands of miles above the earth or most important enriching and widening the scope of your life. In fact you cannot think of one area of learning or practice where understanding what you read is not absolutely essential. The more you understand what you read the less of a drudgery and the more of a joy it becomes. Reading is the key that unlocks the door to the universe. Get ready to start a great adventure and to grab hold of the key that will unlock the door to your universe. Lorraine Gerstl is truly a woman for all seasons. Comprehension is the essence of reading Without it the act of reading is incomplete Yet the RAND Reading Study Group 2002 said that there is inadequate reading comprehension instruction and teacher preparation programs do not give sufficient emphasis to this important domain It is critical for teachers to acquire knowledge and develop skills for explicitly teaching students to use comprehension strategies Comprehension instruction should be taught in the early grades The National Institute of Child Health and Human Development 2000 noted that research should help to determine which strategies are more appropriate for younger readers But much research has not been done on the lower grades This book therefore extends the research on comprehension strategy instruction showing how the strategies were explicitly taught to second graders and how they responded to the instruction It outlines steps teachers and parents may follow when providing strategy instruction that includes comprehension monitoring finding the main idea and summarizing Teachers can
