Tiktok This Month Same Day Delivery:

Empowering Women in the Digital Economy Sheena Lovia Boateng, Richard Boateng, Thomas Anning-Dorson, 2023-08-25
This book presents multidisciplinary perspectives on opportunities and best practices necessary for empowering women in the digital economy in developing countries. The book explores the components of connectivity that matter most to women. It also helps decision makers and policymakers to adopt the policies needed to empower women in using digital platforms and developing and taking up careers in the digital economy in developing economies. In response, we gathered eight contributions or chapters on new directions, strategies, and barriers to women's empowerment through digital technologies. The contributions span thematic areas such as female digital entrepreneurship, social media, and agricultural value chains; women in the gig economy; the digital divide; gender disparities in cryptocurrencies and digital access in agriculture. In principle, the contributions argue that first, appropriate legislation matters, but it is not enough; there is a need to alter social and cultural attitudes and raise awareness. Second, there is a need to address affordability. Government and development agencies may begin by offering free or discounted smart devices to rural women and appropriate digital skills training relevant to their economic activities. Third, there is a need for urgent attention by government labor agencies in developing countries to enforce decent working conditions and protection for female gig workers while maximizing opportunities being offered through these platforms. Don't just leave women to use digital platforms and services; support them with sound policies and programs for responsible and sustainable use. In effect, this book offers clarity on new strategies, case studies, examples, and lessons in addressing or circumventing institutional challenges to women's empowerment through digital technologies.

Impatience Pandemic Conrad Riker, 101-01-01. Your Life Is Moving Too Fast And You're Falling Behind. Why can't you focus like you used to? Why do relationships feel shallow? Why does everything irritate you within seconds? You're not broken. You've been weaponized against by a system designed to keep you distracted, dependent, and docile. The modern world rewards reaction, not reflection, and you're paying the price in stress, failure, and isolation. What ancient philosophers knew about patience, modern algorithms are erasing in real time. Real masculinity isn't toxic; it's disciplined, grounded, and leads with purpose, not impulse. Feminist narratives didn't liberate men; they disarmed them, then blamed them for the disarmament. Your frustration isn't weakness; it's a signal that something fundamental has been stolen from you. The men who thrive aren't lucky; they've rejected the culture of instant gratification and rebuilt from first principles. Emotional intelligence isn't about crying; it's about control, clarity, and calibrated response. The most dangerous myth isn't that men are oppressive; it's that they don't need structure, mission, or meaning. If you want to reclaim your focus, fortify your mind, and lead with unshakable purpose in a world of chaos, buy this book today.
