The Myth of Chinese Capitalism Dexter Roberts, 2020-03-10 The vivid provocative untold story of how restrictive policies are preventing China from becoming the world's largest economy. Evan Osnos Dexter Roberts lived in Beijing for two decades working as a reporter on economics business and politics for Bloomberg Businessweek. In *The Myth of Chinese Capitalism* Roberts explores the reality behind today's financially ascendant China and pulls the curtain back on how the Chinese manufacturing machine is actually powered. He focuses on two places the village of Binhuacon in the province of Guizhou one of China's poorest regions that sends the highest proportion of its youth away to become migrants and Dongguan China's most infamous factory town located in Guangdong home to both the largest number of migrant workers and the country's biggest manufacturing base. Within these two towns and the people that move between them Roberts focuses on the story of the Mo family former farmers turned migrant workers who are struggling to make a living in a fast changing country that relegates one half of its people to second class status via household registration land tenure policies and inequality in education and health care systems. In *The Myth of Chinese Capitalism* Dexter Roberts brings to life the problems that China and its people face today as they attempt to overcome a divisive system that poses a serious challenge to the country's future development. In so doing Roberts paints a boots on the ground cautionary picture of China for a world now held in its financial thrall. Praise for *The Myth of Chinese Capitalism* A gimlet eyed look at an economic miracle that may not be so miraculous after all.
