passengers Navigate legal matters and tax codes Campbell explains these and much more also including funny shocking and bizarre tales from the road Whether you are thinking about becoming a driver or a veteran wondering about UberPool and tax help The Rideshare Guide by the Rideshare Guy has the answers *Intermediated Surge Pricing* Sushil Bikhchandani, 2020 Although Uber and Lyft are known for their flexible surge pricing they are surprisingly rigid in another way each firm takes a constant percentage of passenger fare whether or not there is a surge In this paper I investigate the possible reasons for and the impact of this rigidity I study a market in which a profit maximizing intermediary facilitates trade between buyers and sellers The intermediary sets prices for buyers and sellers and keeps the difference as her fee Optimal prices increase when demand increases that is shifts right If a demand increase is due to an increase in the number of ex ante symmetric buyers then the intermediary's optimal percent fee decreases If instead a demand increase is due to a reduction in the elasticity of demand then the intermediary's optimal percent fee increases In either case if the intermediary keeps a constant percent fee regardless of shifts in demand as is the case with Uber and Lyft then surge pricing i.e. the ratio of price during high demand to price during low demand is amplified on one side of the market and diminished on the other side

Summary of Harry Campbell's The Rideshare Guide Everest Media, 2022-05-25T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 Being an Uber driver isn't as easy as it seems It takes a lot of hard work and skills to be an Uber driver and only a few make it past the difficulties 2 As a rideshare driver you're a 1099 independent contractor which means you'll be responsible for all your expenses and file a Schedule C at tax time However this shouldn't scare you since I'll help you stay ahead of the game when it comes to taxes and reporting 3 Rideshare drivers put a lot of miles on their cars A full time driver can easily do a thousand miles a week or more and if you subtract the cost of gas from your earnings you'll see that your net earnings can be significantly lower than the 459.18 shown in the table 4 The ultimate flexibility Uber allows you to make money on a whim However most people don't need this flexibility You'll want to work enough to get in a rhythm and start earning decent money
