Pa Correction Officer Exam 2015 Study Guide:

Handbook of Employee Selection James L. Farr, Nancy T. Tippins, 2017-03-27 This second edition of the Handbook of Employee Selection has been revised and updated throughout to reflect current thinking on the state of science and practice in employee selection. In this volume a diverse group of recognized scholars inside and outside the United States balance theory research and practice often taking a global perspective. Divided into eight parts, chapters cover issues associated with measurement such as validity and reliability as well as practical concerns around the development of appropriate selection procedures and implementation of selection programs. Several chapters discuss the measurement of various constructs commonly used as predictors and other chapters confront criterion measures that are used in test validation. Additional sections include chapters that focus on ethical and legal concerns and testing for certain types of jobs e.g. blue collar jobs. The second edition features a new section on technology and employee selection. The Handbook of Employee Selection Second Edition provides an indispensable reference for scholars, researchers, graduate students and professionals in industrial and organizational psychology, human resource management and related fields.

Clinical Assessment of Malingering and Deception Richard Rogers, Scott D. Bender, 2020-05-28 Widely used by practitioners, researchers and students and now thoroughly revised with 70% new material, this is the most authoritative comprehensive book on malingering and related response styles. Leading experts translate state of the art research into clear usable strategies for detecting deception in a wide range of psychological and psychiatric assessment contexts including forensic settings. The book examines dissimulation across multiple domains: mental disorders, cognitive impairments and medical complaints. It describes and critically evaluates evidence based applications of multiscale inventories, other psychological measures and specialized methods. Applications are discussed for specific populations such as sex offenders, children and adolescents and law enforcement personnel.

Key Words: Subject Areas: malingering, deception, deceptive feigning, dissimulation, feigned cognitive impairment, feigned conditions, defensiveness, response styles, response bias, impression management, false memories, forensic psychological assessments, forensic assessments, clinical assessments, forensic mental health, forensic psychological evaluations, forensic psychologists, forensic psychiatrists, psychological testing and assessment, detection strategies, expert testimony, expert witnesses, family law, child custody disputes, child protection, child welfare.

Audience: Forensic psychologists and psychiatrists, other mental health practitioners involved in interviewing and assessment including clinical psychologists, social workers, psychiatrists and counselors. Also of interest to legal professionals.
