Nursing Skills for Children and Young People's Mental Health Laurence Baldwin, 2019-08-02 This book focuses on those nursing skills that are truly valued and needed by children and young people with mental health problems Whilst other books have chiefly focused on mental health conditions and treatments this book moves away from this formulaic approach and considers what children and youth themselves need most from health professionals It shows why nursing skills are among the most precious values for patients This focus on therapeutic relationships establishing trust based forms of nursing and empowering children and young people to develop into healthy and resilient young adults has largely been neglected despite the feedback from those who urgently need help but often struggle to find it or are wary of seeking help and reluctant to engage This book focuses on the places where nurses encounter young people and seek to help them It examines the role nurses play in specialist child and adolescent mental health settings such as in patient and community as psychotherapists and on self harm teams and where paediatrics nurses work with troubled young people in emergency departments paediatric wards and primary care It also considers two specific areas namely eating disorder services and consent seeking that could benefit from nursing skills that are currently undervalued but are in fact invaluable Its focus on those skills that nurses already have but may not be consciously using will make this book uniquely appealing to all nurses who work with children and young people with mental health problems regardless of the setting and an essential guide for students and experienced professionals alike [Pediatric Epilepsy](#) Michael Duchowny, Helen Cross, Alexis Arzimanoglou, 2012-09-07 Market Neurologists and pediatricians Diagnostic and treatment algorithms appear throughout Includes sections on comorbidities and monotherapy vs polytherapy **Children's Nursing** National Board for Nursing, Midwifery and Health Visiting for Scotland, 2000 *Guided Participation in Pediatric Nursing Practice* Karen Pridham, Rana Limbo, Michele Schroeder, 2018-05-28 The first book about Guided Participation written for nurses This authoritative publication delivers an in depth examination of Guided Participation GP a dynamic process of teaching and learning that parents and guardians have used for generations to help their charges become self reliant GP is helping another person become competent by providing expertise working alongside the learner For the nurse specifically this means educating and working alongside parents and

children within an environment that supports health. Consistent with client and family centered practice this fresh approach to nurse client teaching is drawn a broad span of disciplines including education social and cultural anthropology relationship based attachment caregiving theory and developmental science. Written for students and practitioners who wish to incorporate GP into their practice and for managers administrators and policy makers who support its implementation this resource demonstrates the value of GP as a new and emerging health care model that integrates care across health care settings. The text describes step by step how to practice GP discusses support systems to maintain GP past the initial treatment. With abundant case studies examples and research findings chapters analyze how GP can promote health prevent acute and chronic illness and adjust old patterns of living and behaviors. Key Features Includes video clips that illustrate how guided participation is applied in a variety of clinical practice settings Provides access to self directed online instruction Links to online journal case studies additional chapters and references Features downloadable parent checklists and teaching guides Discusses effective application of Guided Participation to all aspects of pediatric nursing care in a variety of practice settings Includes numerous case studies and examples with specific components identified to help readers learn theory and related concepts Learn to apply guided participation by joining the case based online course offered at University of Wisconsin Madison

Child, Adolescent, and Family Psychiatric Nursing Barbara Schoen Johnson, 1995 A practical text that focuses on the mental disorders most often encountered in children and adolescents. Experts in the field discuss collaborative treatment and theoretical foundations for nursing care of this population. Current research and biological theories are integrated throughout the text. A must have reference for the practitioner in psychiatric paediatric and family nursing. This text provides clinical examples and covers problems in parenting and chemical dependencies. A special unit is also included on groups that are particularly at risk for mental disorders including discussions about victimization chronic illness and disability children of mentally ill and homeless families

Competency in Pediatric Nursing Karen Gunter, Sandra Matteson, 2001 Competency in Pediatric Nursing A Modular Training Program provides comprehensive clinical education in nursing care for children and infants with complex medical conditions. This unique manual teaches a skill set that can be applied in any setting in the home in hospital neonatal or pediatric intensive care units or in long term or sub acute facilities. In developing this learning system the authors observed thousands of hours of pediatric nursing care. The result each training module is based on procedures and techniques that have been tested and refined in actual practice settings and have been proven effective by pediatric nurses and healthcare administrators. Medical educators and trainers will find Competency in Pediatric Nursing facilitates interactive learning. Each module is designed as a teaching and learning practicum with charts and diagrams illustrating every procedure and technique. And all 15 learning modules are included in a CD ROM with 500 Power Point slides that accompanies the manual. Checklists and self test materials allow practitioners to evaluate their performance in each competency. These assessment tools are treatment guidelines provide nurses with positive

incentives to expand their knowledge base and improve nursing skills Healthcare administrators will find objective performance measures that can be used to raise the standard of pediatric nursing care Each learning module in Competency in Pediatric Nursing includes competency checklists and tests that can be submitted for Continuing Education credits Upon successful completion of each test Nursing CE credits will be awarded a total of 15 nursing CE credits can be earned by demonstrating competency in each of the subject areas covered in the manual For Orders and Inquiries please call 1 888 427 5800 **2008 Healthcare Standards Official Directory** ECRI Institute Staff,Ecri,2007-12 *Developing a Competency Framework for Nurses Working in Paediatric Nephrology Clinical Network ,2013*
