Vanishing Boundaries Richard E. Crandall, William R. Crandall, 2013-10-23 Businesses need to become more consumer centric efficient and quality conscious Yet global competition and supply chain complexity are increasing so rapidly that managers must reach across the manufacturing and service boundary to gather more universally applicable ideas *Vanishing Boundaries How Integrating Manufacturing and Services Creates C* **ICONSEIR 2019** Nasrun, Yusnadi, Elvimailani, Muhammad Faisal, Sriadhi, 2020-06-04 As an annual event 2nd International Conference of Science Education in Industrial Revolution 4.0 **ICONSEIR 2019** continued the agenda to bring together researcher academics experts and professionals in examining selected theme by applying multidisciplinary approaches In 2019 this event will be held in 17 December at La Polonia Hotel and Convention The conference from any kind of stakeholders related with Education Information Technology Engineering and Mathematics Each contributed paper was refereed before being accepted for publication The double blind peer reviewed was used in the paper selection De-Westernizing Communication Research Georgette Wang, 2010-12-14 The rise of postmodern theories and pluralist thinking has paved the way for multicultural approaches to communication studies and now is the time for decentralization de Westernization and differentiation This trend is reflected in the increasing number of communication journals with a national or regional focus Alongside this proliferation of research output from outside of the mainstream West there is a growing discontent with communication theories being Westerncentric Compared with earlier works that questioned the need to distinguish between the Western and the non Western and to build Asian communication theories there seems to be greater assertiveness and determination in searching for and developing

theoretical frameworks and paradigms that take consideration of and therefore are more relevant to the cultural context in which research is accomplished This path breaking book moves beyond critiquing Westerncentrism in media and communication studies by examining where Eurocentrism has come from how is it reflected in the study of media and communication what the barriers and solutions to de centralizing the production of theories are and what is called for in order to establish Asian communication theories
