**Justice, Equality and Tax Law** Nevja Čičin-Šain, Mario Riedl, 2022-10-05 An in depth analysis of the specific aspects of justice equality and tax law Justice Equality and Tax Law is a topic that is both old and new at the same time Even if the society changes the demands that tax needs to be just and equal seem to be immutable What changes of course is the perception of the content of those demands International taxation post BEPS has been fraught with new challenges that warranted urgent responses These challenges were mainly provoked by the unprecedented rise of the digital economy which truly marked a change in the way business is conducted how value is created and how goods and services are produced and consumed Digitalization in turn had repercussions on all aspects of taxation direct taxation indirect taxation and even tax procedures For instance the quest for more justice and equality in profit taxes was the reason why in October 2021 a historical deal based on a two pillar solution to address the tax challenges arising from the digitalization of the economy was negotiated within the OECD G20 Inclusive Framework on Base Erosion and Profit Shifting and agreed upon by 137 member countries It was also the motive behind the shift from a typical vendor collection model to an intermediary collection model supported by centralized registration points in indirect taxes notably the VAT GST Abundant data from the European Union or the OECD signaled an ever increasing gap between expected VAT revenues and VAT actually collected making it obvious that the classical system of VAT GST collection was unable to respond to challenges posed by the digital economy Therefore new solutions based on the participation of digital platforms as intermediaries had been introduced Finally new technologies such as blockchain paved new avenues in enhancing tax compliance In this context this volume entitled Justice Equality and Tax Law contains not only a selection of the best master's theses of the full time LL M programme in 2021 2022 but also represents an in depth analysis of various aspects of this evergreen topic
