**More Perfect** Temi Oh, 2023-05-25 What does it feel like to wake up in the Panopticon It's like waking up for the first time ever It's like waking up with a third eye When Moremi connects her brain to the Panopticon a network which allows you to see inside the minds and dreams of others she believes that it will save her from depression loneliness and eventually death That is until she meets Orpheus Orpheus was brought up in isolation by a Neo luddite father He was raised to question everything including the government who plan to make the connection procedure compulsory They promise that connecting everyone to the Panopticon will end human suffering and usher in a more perfect world But when Orpheus and Moremi uncover the dark side of the technology they find themselves on opposite sides of a radical divide between those who believe that the Panopticon will save humanity and those who will stop at nothing to destroy it The Circle meets Inception in an immersive and futuristic story that explores love loneliness and the limits of technology's ability to save a humanity who might not want to be saved
