Businesses are rushing to collect personal data to fuel surging demand Data enthusiasts claim personal information that is obtained from the commercial internet including mobile platforms social networks cloud computing and connected devices will unlock path breaking innovation including advanced data security By contrast regulators and activists contend that corporate data practices too often disempower consumers by creating privacy harms and related problems As the Internet of Things matures and facial recognition predictive analytics big data and wearable tracking grow in power scale and scope a controversial ecosystem will exacerbate the acrimony over commercial data capture and analysis The only productive way forward is to get a grip on the key problems right now and change the conversation That's exactly what Jules Polonetsky, Omer Tene and Evan Selinger do They bring together diverse views from leading academics business leaders and policymakers to discuss the opportunities and challenges of the new data economy **Florida Law Review**, 2016-03

Communication Paula Bialska, Finn Brunton, Mercedes Bunz, 2019-01-29 On contemporary communication in its various

human and nonhuman forms Contemporary communication puts us not only in conversation with one another but also with our machinery Machine communication to communicate not just via but also with machines is therefore the focus of this volume Diving into digital communications history Finn Brunton brings to the fore the alienness of computational communication by looking at network timekeeping automated trolling and early attempts at communication with extraterrestrial life Picking up this fascination with inhuman communication Mercedes Bunz then performs a close reading of interaction design and interfaces to show how technology addresses humans as very young children Finally Paula Bialska shares her findings from a field study of software development analyzing the communicative forms that occur when code is written by separate people Today communication unfolds merely between two or more conscious entities but often includes an invisible third party Inspired by this drastic shift this volume uncovers new meanings of what it means to communicate

Digital Cash Finn Brunton, 2019-06-25 The fascinating untold story of digital cash and its creators from experiments in the 1970s to the mania over Bitcoin and other cryptocurrencies Bitcoin may appear to be a revolutionary form of digital cash without precedent or prehistory In fact it is only the best known recent experiment in a long line of similar efforts going back to the 1970s But the story behind cryptocurrencies like Bitcoin and its blockchain technology has largely been untold until now In Digital Cash Finn Brunton reveals how technological utopians and political radicals created experimental money to bring about their visions of the future protecting privacy or bringing down governments preparing for apocalypse or launching a civilization of innovation and abundance that would make its creators immortal The incredible story of the pioneers of cryptocurrency takes us from autonomous zones on the high seas to the world's most valuable dump from bank runs to idea coupons from time travelers in a San Francisco bar to the pattern securing every twenty dollar bill and from marketplaces for dangerous secrets to a tank of frozen heads awaiting revival in the far future Along the way Digital Cash explores the hard questions and challenges that these innovators faced How do we learn to trust and use different kinds of money What makes digital objects valuable How does currency prove itself as real to us What would it take to make a digital equivalent to cash something that could be created but not forged exchanged but not copied and which reveals nothing about its users Filled with marvelous characters stories and ideas Digital Cash is an engaging and accessible account of the strange origins and remarkable technologies behind today's cryptocurrency explosion

A Robust Data Obfuscation Technique for Privacy Preserving Collaborative Filtering Rupa Parameswaran, 2006 Privacy is defined as the freedom from unauthorized intrusion The availability of personal information through online databases such as government records medical records and voters lists pose a threat to personal privacy The concern over individual privacy has led to the development of legal codes for safeguarding privacy in several countries However the ignorance of individuals as well as loopholes in the systems have led to information breaches even in the presence of such rules and regulations Protection against data privacy requires modification of the data itself The term *em data obfuscation* is used to refer to the class of

algorithms that modify the values of the data items without distorting the usefulness of the data. The main goal of this thesis is the development of a data obfuscation technique that provides robust privacy protection with minimal loss in usability of the data. Although medical and financial services are two of the major areas where information privacy is a concern, privacy breaches are not restricted to these domains. One of the areas where the concern over data privacy is of growing interest is collaborative filtering. Collaborative filtering systems are being widely used in E-commerce applications to provide recommendations to users regarding products that might be of interest to them. The prediction accuracy of these systems is dependent on the size and accuracy of the data provided by users. However, the lack of sufficient guidelines governing the use and distribution of user data raises concerns over individual privacy. Users often provide the minimal information that is required for accessing these E-commerce services. The lack of rules governing the use and distribution of data disallows sharing of data among different communities for collaborative filtering. The goals of this thesis are a) the definition of a standard for classifying DO techniques, b) the development of a robust cluster preserving data obfuscation algorithm, and c) the design and implementation of a privacy preserving shared collaborative filtering framework using the data obfuscation algorithm.

Web Application Obfuscation Mario Heiderich, Eduardo Alberto Vela Nava, Gareth Heyes, David Lindsay, 2010-12-24. Web applications are used every day by millions of users, which is why they are one of the most popular vectors for attackers. Obfuscation of code has allowed hackers to take one attack and create hundreds if not millions of variants that can evade your security measures. *Web Application Obfuscation* takes a look at common Web infrastructure and security controls from an attacker's perspective, allowing the reader to understand the shortcomings of their security systems. Find out how an attacker would bypass different types of security controls, how these very security controls introduce new types of vulnerabilities, and how to avoid common pitfalls in order to strengthen your defenses. Named a 2011 Best Hacking and Pen Testing Book by InfoSec Reviews. Looks at security tools like IDS/IPS that are often the only defense in protecting sensitive data and assets. Evaluates Web application vulnerabilities from the attacker's perspective and explains how these very systems introduce new types of vulnerabilities. Teaches how to secure your data, including info on browser quirks, new attacks and syntax tricks to add to your defenses against XSS, SQL injection, and more.

web sep 1 2018 this article presents an optimal design for reinforced pad and strip foundations based on multiparametric mixed integer and nonlinear programming minlp optimizations

designing a pad foundation to eurocode structures centre - Feb 10 2023

web mar 30 2020 worked example a pad foundation is required for a column 500mm x 500mm the column carries 1750kn from permanent actions and 1050kn from variable actions design the pad foundation completely from c30 37 concrete with steel grade of 460mpa assuming the presumed bearing resistance of the soil is 150kn m²

design of pad footing structural guide - May 01 2022

web worked example to eurocode 2 design of pad footing basic steps 01 calculate the size of the footing considering allowable bearing pressure and service load 02 calculate the bearing pressure for ultimate loads 03 check the

pad foundation design sand concrete verification under - Jul 03 2022

web pad foundations are designed for geotechnical en 1997 1 and reinforced concrete en 1992 1 1 capacities in the geotechnical design the geometry of the pad foundation is found which the soil can resist in the concrete design the longitudinal and shear reinforcement is calculated geotechnical engineering

what is pad foundation design principles types and selection - Oct 06 2022

web the pad foundations are shallow foundation that take and spread point loads to the soil safely the pad foundation are

preferred if the soil at the site have sufficient strength and is not too deep to construct the thickness of pad foundations are generally uniform

design of footings decoding eurocode 7 - Apr 12 2023

web 6 8 structural design of foundations 6 6 9 preparation of the subsoil 2 section 6 of en 1997 1 applies to pad strip and raft foundations and some the worked examples in this chapter c onsider the design of a pad footing on dry sand example 10 1 the same f ootting but eccentrically loaded example 10 2 a strip footing on clay

etc10 design examples 2 eurocode 7 - Jun 14 2023

web the design examples 1 pad foundation with vertical central load on dense sand 2 pad foundation with inclined load on boulder clay 3 pile foundation in stiff clay 4 earth and pore water pressures on basement wall 5 embankment

design and construction of pad - Dec 28 2021

web jan 7 2020 the soil s bearing capacity as well as the concrete s strength are the factors that define the angle of the load s spread the type of skeletal frame will determine the pad foundation design for example a cast institute concrete column will require a kicker and continuity bars to be cast into the pad

schematics for the pad foundation design researchgate - Nov 07 2022

web an example of pad foundation design supported by boulder clay developed by european technical committee 10 is used as a site investigation geotechnics and foundation design researchgate

technical guidance note level 2 no 7 designing a concrete pad - May 13 2023

web this technical guidance note covers the design of concrete pad foundations both mass and reinforced concrete forms it will not however discuss how the bearing capacity of the soil is determined as that is explained in technical guidance note

design of biaxial eccentrically loaded pad footing structville - Mar 11 2023

web oct 27 2022 design of biaxial eccentrically loaded pad footing structville a biaxial eccentrically loaded pad footing occurs when the column transmitting load to the foundation is subjected to compressive axial force and bending

design of foundations people utm - Jan 29 2022

web design of pad footing cracking detailing requirements all reinforcements should extend the full length of the footing if 1 5 3 at least two thirds of the reinforcement parallel to 1 y should be concentrated in a band width 3 centred at column where 1 x 1 y and c x c y are the footing and column dimension in x and y directions

appendix h design charts for pad and strip foundations - Sep 05 2022

web design examples 5 and 6 in chapter 11 figures h 2 h 3 and h 4 preliminary estimation of effective depth required for reinforced pad bases in bending these design charts give a preliminary estimate of the effective depth required of a pad foundation in bending beam shear and punching shear respectively given the

design of pad footing structural guide pad foundation design - Mar 31 2022

web nov 4 2019 structural loads structural analysis and structural design are simply explained with the worked example for easiness off understandable element designs with notes and discussions have supplementary for get broad knowledge

pad foundation design example eurocode 2 how to design a pad foundation - Feb 27 2022

web may 1 2021 pad foundation design example using prescriptive method the construction pad foundation is to be designed against a permanent load of 1200 kn and imposed auslastung are 550 kn there is adenine actual of 250 knm permanent and 200 knm imposed the columns dimensions is 450 expunge 450mm
