Out Frames How Nlp Coaching Works:

Out-Frames Richard Bolstad, Julia Kurusheva, 2013 Written primarily for coaches and NLP Practitioners this book first confirms what coaching and NLP Neuro Linguistic Programming do scientifically and then shows how 7 radical new perspectives can enhance your use of these tools For every coach who ever wondered Why isn t this working and every person who asked themselves How can I actually get the success I know I could be getting International Coaching NLP Trainers Richard Bolstad and Julia Kurusheva share their decades of experience helping people achieve outcomes and create a more satisfying lifestyle Contents include Richard s widely recognised RESOLVE model updated with the most recent Psychology research Julia s Sprint model A new coaching study concludes The usage of SPRINT is certainly the factor that most strongly is correlated to successful performance The Wheel of Change model that explains how different coaching styles match different personality types The Couples Coaching model that takes coaching beyond individualistic cultural and gender biases and uses it to create cooperation A model for treating coaching as a Spiritual process

Team Coaching: Artists at Work Helena Dolny, 2012-09-27 No company has ever succeeded simply because it has brilliant individuals in its ranks in fact many have failed because they have not succeeded in getting great talent to work together as a team Every single South African business lives or dies by its ability to get its people to work together in constantly changing teams towards achieving the common goals of the company Team Coaching Artists at Work shows how the right coaching interventions can build skills in individuals so that they can become effective team players in a variety of work situations The book is not surprisingly a team effort A group of top South African coaches got together to share everything they had used individually when coaching teams This pooling of best practice was so exciting the outcome so much more than anticipated that they decided to write this book together This is not a DIY manual nor is it a bible Corporate teams are often temporary and shifting in nature with continuous restructuring promotions new people moving in others resigning Flexibility and creativity are critical That s precisely where team coaching interventions come in to increase individual self awareness enhance people s ability to adapt to the styles of others and create cohesion and commitment of how to work together That s when the real people power of an organisation starts to make itself felt when talented individuals become effective team members Coaches are artists who bring their facilitation talents and tools to the team to make this happen This is a book for business and team leaders who would like to turn a collection of outstanding individuals into an unbeatable team Coaching is one of the fastest growing professions and this book contributes to wider understanding of what potential coaching offers not only for business teams but also for societal transformation

How Coaching Works Joseph O'Connor, Andrea Lages, 2009-01-01 Coaching is very big business Over the last decade it has become one of the most popular approaches to personal and business development Coaching books tend to focus on just one method and just one of five main areas Executive coaching for senior business people Business coaching for companies to improve results Life coaching for people who want a better sense of fulfilment

and wellbeing Sports coaching for individual athletes Team coaching for teams in sport or business Pragmatic and informative How Coaching Works is the first to explain the key concepts that underpin all of these different areas It also explores how different ideas have blended to give rise to what we know as coaching today and singles out what works The authors are two of the world's leading experts in this field In How Coaching Works they have created a must have book for practising coaches students and anyone interested in the subject

NLP Coaching Susie Linder-Pelz, 2010-02-03 NLP Neuro Linguistic Programming is believed by many to be a powerful set of tools for facilitating change and enhancing performance Yet despite the success stories and proliferation of courses there is still much skepticism about the validity and effectiveness of NLP In NLP Coaching Susie Linder Pelz brings for the first time an evidence based perspective to this coaching methodology She explains how and where NLP coaching is used examines its links to established principles and practices and questions aspects of NLP where the empirical evidence is missing She reviews recent developments in NLP based coaching practice and proposes a specific research agenda that will move NLP coaching towards an evidence based approach NLP Coaching provides numerous case studies and real life examples which show how NLP assists personal professional team leadership and organizational development The book includes contributions from leaders in the field Andrew Bryant Michelle Duval Joseph O Connor Paul Tosey and Lisa Wake

Developmental Coaching Martin Shervington, 2012-11-22 Modern life demands a more complex way of thinking and being Developmental Coaching is a transformative programme designed to enable true shifts in consciousness in executives professionals and coaches It has already been delivered to hundreds of people across the globe with stunning affects It really works to meet the demands of modern life Created as an edu coaching programme the reader as with a real life coachee is taken through fundamental psychological models whilst applying them to their own personal circumstances Through seven sessions they build a framework for operating in the modern world There is an Integral Psychology throughout Structured around the work of Wilber Kegan and Vaillant this seven step process gently leads an individual to appreciating levels of consciousness lines of developmental adaptations and domains of existence With the key being points of application the reader is enabled to relate to the theory in a very grounded way The result will be a dramatic improvement in competence as well as a potential leap in consciousness
