**Bad Language** Edwin Battistella,2005-08-25 Is today s language at an all time low Are pronunciations like cawfee and chawklit bad English Is slang like my bad or hook up improper Is it incorrect to mix English and Spanish as in Yo quiero Taco Bell Can you write Who do you trust rather than Whom do you trust Linguist Edwin Battistella takes a hard look at traditional notions of bad language arguing that they are often based in sterile conventionality Examining grammar and style cursing slang and political correctness regional and ethnic dialects and foreign accents and language mixing Battistella discusses the strong feelings evoked by language variation from objections to the pronunciation NU cu lar to complaints about bilingual education He explains the natural desire for uniformity in writing and speaking and traces the association of mainstream norms to ideas about refinement intelligence education character national unity and political values Battistella argues that none of these qualities is inherently connected to language It is tempting but wrong Battistella argues to think of slang dialects and nonstandard grammar as simply breaking the rules of good English Instead we should view language as made up of alternative forms of orderliness adopted by speakers depending on their purpose Thus we can study the structure and context of nonstandard language in order to illuminate and enrich traditional forms of language and make policy decisions based on an informed engagement Re examining longstanding and heated debates Bad Language will appeal to a wide spectrum of readers engaged and interested in the debate over what constitutes proper language
