**The Parliamentary Representation of the English Boroughs** May McKisack,2019-10-10 Originally published at 1932 this book based on long research in municipal and borough records attempts to correlate some of the evidence bearing on the representation of the towns of Medieval England and to discover the answers to such basic questions as how the citizens were elected paid and taxed what their function in parliament was and what type of men they were It is an essential study for all those concerned with the development of the English Parliamentary System

## **Parliamentary Representation in**

**France** Olivier Costa,2017-07-05 Despite real improvements since the beginning of the last decade legislative studies are still underdeveloped in France compared to other modern democracies This weakness is linked to the characteristics of the political system itself the Constitution of 1958 has created a semi presidential regime the centrality of which has been constantly reinforced since The French parliament is thus supposed to be extremely feeble This lack of interest for legislative studies is also to be found in the specificities of French political sociology which pays little attention to institutions As a result very few papers and books deal with French chambers and MPs Yet they are fascinating cases of study for scholars interested in parliamentary representation professionalization of political life and French politics The French parliament and MPs are deeply paradoxical MPs are very attached to the concept of national sovereignty but remain involved at local level and in surgery work the French National Assembly is supposed to be weak but is quite active and influential citizens are more aware of the role of MPs than it seems and their views and values are closer than predicted This book gathers seven papers from the LEGIPAR research project 2008 2012 The project was designed by the contributors to rejuvenate French legislative studies by collecting systematic data on MPs socio biographical profiles and activities conducting face to face interviews gathering exhaustive data on National Assembly activity and organising focus groups to analyse citizens perceptions of their MPs This book was originally published as a special issue of the Journal of Legislative Studies

## **Parliamentary Representation**

**in Central Asia** Esther Somfalvy,2020-06-09 This book explores the nature of parliamentary representation within the autocratic regimes of Kazakhstan and Kyrgyzstan It argues that although many parliaments are elected under flawed or non competitive elections autocratic governments are nevertheless aware of the need to appear representative and accessible to the demands of citizens and that even limited parliaments manage to represent their voters sometimes in ways not intended

by the regime The book examines how elites structure manage and organize representation how they foster the desired kind of representation and how they limit the ways in which parliaments fulfil their representative functions The book concludes that Kazakhstan is a more hegemonic form of autocracy and the Kyrgyz Republic a more competitive form and that the degree to which parliaments fulfil their representational functions and how much room for manoeuvre individual MPs have depends largely on how much parties control candidate selection and the daily schedule and administrative resources of parliaments    *Parliament the Mirror of the Nation* Gregory Conti,2019-04-25 The notion of representative democracy seems unquestionably familiar today but how did the Victorians understand democracy parliamentary representation and diversity

**Politics in the Age of Peel** Norman Gash,2013-04-18 Politics in the Age of Peel first published in 1953 is concerned with the ordinary working world of politicians in England during the stormy period between 1830 and 1850 the age of the railway the Chartists the Anti Corn Law League and the Irish famine Even in the wake of the Great Reform Act of 1832 many corrupt aspects of the old unreformed system of democratic election survived and politicians had to meet national problems in the teeth of newly clamorous public opinion while remaining hostage to the representative structure that defined and limited their powers Norman Gash made his professional reputation with this brilliant work hailed in an unsigned TLS review which was known to have been written by Sir Lewis Namier as worthy of the warmest acclamation    Analytical and Classified Catalogue of the Library of the Parliament of Queensland Queensland.
