Freyermuth, Isabelle Hamm, Vanessa Ossa, 2025-01-14 Neal Stephenson s 1992 novel Snow Crash conceived of the Metaverse as an escapist medium within a dystopian future By the early 2000s his vision had evolved into a blueprint for pioneering virtual worlds notably Second Life In the 2010s technology companies from Meta to Epic Games recast the Metaverse as the next frontier of digital experience and revenue generation Now in the 2020s the still speculative concept encompasses a convergence of extended reality technologies alongside blockchain systems and artificial intelligence This volume brings together leading scholars and industry professionals to examine past imaginations and recent achievements in the pursuit of the Metaverse Contributors trace its development through literary media and cultural history while exploring

current applications and their technical social cultural and economic implications **Philosophy of the Tourist** Hiroki Azuma,2023-05-09 An inventive philosophical study that reconsiders the figure of the tourist Tourism is a characteristically modern phenomenon yet modern thinkers have tended to deride the tourist as a figure of homogenizing globalism This philosophical study considers the tourist anew as a subject position that enables us to redraw the map of globalized culture in an era increasingly in revolt against the liberal intellectual worldview and its call for the welcome of the Other Why has the tourist proved so resistant to philosophical treatment asks Hiroki Azuma Tracing the reasons for this exclusion through the work of Rousseau and Voltaire and subsequently in Kant Carl Schmitt Alexandre Kojve Hannah Arendt and Hardt and Negri Azuma contends that the figure of the tourist has been rendered illegible by becoming ensnared in a series of misleading conceptual dichotomies and a linear model of world history In the widening gap between the infrastructure of globalization and inherited ties of local and national belonging Azuma's retheorization of the tourist presents an alternative to the choice between doubling down on local identity and roots or hoping for the spontaneous uprising of a multitude from within the great networked Empire For the tourist is the subject capable of moving most freely between the strata of the global and the local With explorations of the connection between tourism and fan fiction contingency and misdelivery cyberspace and the uncanny and dark tourism Azuma's inventive and optimistic philosophical essay sheds unexpected new light on a mode of engagement with the world that is familiar to us all *The Routledge Companion to Gender and Japanese Culture* Jennifer Coates,Lucy Fraser,Mark Pendleton,2019-12-06 This Companion is a comprehensive examination of the varied ways in which gender issues manifest throughout culture in Japan using a range of international perspectives to examine private and public constructions of identity as well as gender and sexuality inflected cultural production The Routledge Companion to Gender and Japanese Culture features both new work and updated accounts of classic scholarship providing a go to reference work for contemporary scholarship on gender in Japanese culture The volume is interdisciplinary in scope with chapters drawing from a range of perspectives fields and disciplines including anthropology art history history law linguistics literature media and cultural studies politics and sociology This reflects the fundamentally interdisciplinary nature of the dual focal points of this volume gender and culture and the ways in which these themes infuse a range of disciplines and subfields In this volume Jennifer Coates Lucy Fraser and Mark Pendleton have brought together an essential guide to experiences of gender in Japanese culture today perfect for students scholars and anyone else interested in Japan culture gender studies and beyond
