**The Chinese Idea of a University** Rui Yang, 2022-09-02 In *The Chinese Idea of a University Phoenix Reborn* Rui Yang conceptualizes the cultural foundations of modern university development in Chinese societies Instead of focusing on the uniqueness of the societies this book aims to prove that one educational purpose could be fulfilled via many paths and that most of the characteristics the university could be found in other institutions of higher learning Citing the practices of four selected Chinese societies Yang opposes the existence of an impassable chasm between Chinese and Western ideas of a university and argues that it is possible to combine Chinese and Western ideas of a university Also this book is one of the first in English to theorize the Chinese idea of a university It links the historical events to the present in a context of an enormous impact of Western academic models and institutions from the beginning of modern universities in Chinese societies to the contemporary period The scholarship is of high quality based on a thorough critical reading of relevant literature in both English and Chinese as well as detailed empirical research carried out on the campuses of eight leading universities in the four Chinese societies under consideration Ruth Hayhoe professor University of Toronto Yang Rui has produced an academic masterwork China has arrived as a global power and the East Asian university has achieved or largely achieved the long project of catch up to the West The future begins now and question of the Chinese idea of a university should trigger much discussion Professor Yang favors the development of hybrid East West higher education in the Chinese civilizational zone noting that to an extent existing universities have taken this path already He develops these challenging issues with a depth of scholarship far exceeding the current journal papers in the topic area and a style of exposition that reads really well A book of lasting importance Highly recommended Simon Marginson professor University of Oxford joint editor in chief *Higher Education* **Collegiate News & Views** ,1980 Statistical Reference Index ,1980 Collegiate News and Views ,1980

Cornuel, Howard Thomas, Matthew Wood, 2022-03-01 Without a doubt business schools have been a success story in higher education over the last 50 years the period of EFMD s existence Even so they have come under scrutiny and attack over their academic legitimacy and value proposition for business and society In this book drawn from a special issue of *Global Focus* the EFMD has selected around 25 of the best most thoughtful short papers published in *Global Focus* to examine the role and purpose of EFMD in the evolution of management education Each of the chapters interpret current strategic debates about

the evolution of business schools and their paradigms and also identify possible strategic options for handling uncertain volatile futures These papers can be broadly categorized into four consistent themes the first theme is concerned with the purpose and value proposition of management education the second theme focuses on a perceived need for new business models and how to design and build them the third theme addresses the question of the impact of the business school on business and society given the increasingly academic pursuits of business schools and their often weak links to the business community the so called rigour relevance dilemma and the fourth theme concerns how to map and design business school futures in an increasingly volatile uncertain complex and ambiguous crisis oriented environment This impressive collection of insights from business management leaders from across the globe is inspiring reading for higher education leaders policy makers and business leaders seeking insight into the future of management education The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
