**Events and Festivals** Martin Robertson, Elspeth Frew, 2013-09-13 Events and festivals have an increasingly vital role in our leisure lifestyles. We recognize them as part of our lives. For some they are a very significant part of our lives. The network of festivals and events that either adorn the world now or are planned for the future can both serve to motivate new visits as well as enhance the lives of the people who live in or near the host area. They are also dynamos of cultural development of sport knowledge and excellence and sophisticated consumption. Such dynamic outputs require dynamic inputs. This book looks at different event and festival cases and forwards separate and current managerial implications and responses to these with reference to the UK, America and Australia. Both up to date and forward thinking, the managerial themes addressed are Creative Management, Festival and Event audience development, Culture and Community, Event and Festival evaluation. Festival and event types include sport events, art festivals, community events, live music and culinary extravaganza. This book was previously published as a special issue of *Managing Leisure: An International Journal*. **City Guide USA Web**
