Great Britain. Parliament. House of Commons. Home Affairs Committee,2013 The threat of a cyber attack to the UK is so serious it is marked as a higher threat than a nuclear attack One can steal more on the internet than they can by robbing a bank and online criminals in 25 countries have chosen the UK as their number one target Astonishingly some are operating from EU countries If we don't have a 21st century response to this 21st century crime we will be letting those involved in these gangs off the hook After a 10 month inquiry the Committee concluded that a dedicated state of the art espionage response team should be established so that attacks can be immediately reported Banks must be required to report all e crime fraud to law enforcement it is alarmed that CEOP is having its budget cut by 10% over 4 years its experienced Chief Executive is leaving and it could lose its laser like focus when merged with the National Crime Agency it is still too easy for

people to access inappropriate online content and those responsible need to take stronger action to remove such content the Government should draw up a mandatory code of conduct with them to remove material which breaches acceptable standards the DPP should review sentencing guidance and ensure e criminals receive the same sentences as if they had stolen the same amount of money or data offline the Government should look at setting up a similar organisation to the Internet Watch Foundation focused on reporting and removing online terrorist content *The Official America Online for Windows 3.1 Tour Guide* Tom Lichty,1996-06 **Guide to Computing Services** Colorado State University.
