## **Max Streaming In The Us:**

**Seriality in the Streaming Era** Lene Heiselberg,Bo Kampmann Walther,Jakob Isak Nielsen,Rasmus Rønlev,2025-09-12  
Seriality in the Streaming Era explores the dynamic transformation of serialized storytelling in the digital era where platforms like Netflix Disney and Apple Podcasts have redefined how narratives are created consumed and experienced This book examines the profound impact of streaming technologies on both fictional and nonfictional series offering an in depth analysis of how these formats have evolved Drawing from case studies across a wide range of media from television to podcasts and social media platforms like Facebook and Snapchat this book highlights how serialized storytelling has adapted to diverse formats and consumption habits The authors explore key trends such as platform specific narrative structures audience engagement and the blending of genres in both entertainment and journalism With a focus on both the aesthetic and functional shifts in seriality the book offers theoretical insights into the future of storytelling in a media landscape increasingly shaped by data driven strategies and audience participation Furthermore the book tackles how seriality navigates the delicate balance between creativity and commercial demands As a significant contribution the book features interviews with key industry professionals in the field of serial media production Seriality in the Streaming Era is an essential resource for scholars students and industry professionals as well as anyone curious about the evolving role of serialized narratives in shaping modern media culture

**From Telenovelas to Netflix: Transnational, Transverse Television in Latin America** Joseph Straubhaar,Melissa Santillana,Vanessa de Macedo Higgins Joyce,Luiz Guilherme Duarte,2021-12-06  
This book is about television in Latin America Its national and regional industries create most television programming there within genres developed over time in the region However part of the programming has always come from the U S Europe and elsewhere With cable satellite and now streaming TV that inflow of foreign programming has increased substantially While many in the audience still prefer national or regional programs for their cultural proximity an increasing number among the upper middle and middle classes particularly the young are turning to the new foreign services like Netflix Amazon and Disney for class distinction cosmopolitanism or other motives Among the television industries global regional and national actors are creating a variety of programs and channels broadcast pay TV and streaming to segment and appeal to different parts of the audience

ICEMME 2022 Nikolaos Freris,Qinghai Li,Harsh Kumar,2023-02-15 It is our great pleasure to have you at the 2022 4th International Conference on Economic Management and Model Engineering ICEMME 2022 which was held in Nanjing China from November 18th to 20th virtual event It is an international forum for academic communications between experts and scholars in the fields of economic management and model engineering The main objective of ICEMME 2022 is to provide a platform to deliberate latest developments and future directions in the fields of economic management and model engineering The conference provided opportunities for the delegates to exchange research ideas and scientific information and established business or research relations for all participants to find global partners for future collaboration

**Unsteady Viscous Flows** Demetri P. Telionis, 2012-12-06 Most of the fundamental concepts of unsteady viscous flows have been known since the early part of the century. However, the past decade has seen an unprecedented number of publications in this area. In this monograph, I try to connect materials of earlier contributions and synthesize them into a comprehensive entity. One of the main purposes of a monograph, in my opinion, is to fit together in a comprehensive way scattered contributions that provide fragmented information to the readers. The collection of such contributions should be presented in a unified way: continuity of thought and logical sequence of the presentation of ideas and methods are essential. The reader should be able to follow through without having to resort to other references, something that is unavoidable in the case of a research paper or even a review paper. Many of the solutions discussed in the literature address specific practical problems. In fact, in the process of collecting information, I discovered independent lines of investigations dealing with the same physical problem but inspired by different practical applications. For example, I found that two groups of investigators have been studying independently the response of a viscous layer to a harmonic external disturbance. One group is concerned with mass transport and the transport of sediment over the bottom of the ocean, and the other is interested in the aerodynamics of lifting surfaces in harmonically changing environments. **All the Year Round**, 1871 **Dangerous**

**Fictions** Lyta Gold, 2024-10-29 Honorable Mention for the Pop Culture Association Awards In a political moment when social panics over literature are at their peak, *Dangerous Fictions* is a mind-expanding treatise on the nature of fictional stories as cultural battlegrounds for power. Fictional stories have long held an uncanny power over hearts and minds, especially those of young people. In *Dangerous Fictions*, Lyta Gold traces arguments both historical and contemporary that have labeled fiction as dark, immoral, frightening, or poisonous. Within each, she asks: How dangerous is fiction really? And what about it provokes waves of moral panic and even censorship? Gold argues that any panic about art is largely a disguised panic about power. There have been versions of these same fights over fiction for centuries. By exposing fiction as a social danger and a battleground of immediate public concern, we can see what each side really wants: the right to shape the future of a world deeply in flux and a distraction from more pressing material concerns about money, access, and the hard work of politics. From novels about people driven insane by reading novels to copaganda TV shows that influence how viewers regard the police, Gold uses her signature wit, research, and fearless commentary to point readers toward a more substantial question: Fiction may be dangerous to us, but aren't we also dangerous to it? **Entrepreneurial New Venture Skills** David C.

Kimball, Robert N.
