- Creating a new worksheet

Toolbars

Contains buttons and drop-down lists for common tasks, such as saving files **A**, inserting frequently used functions **B**, and changing the number of decimal places displayed **C**. To modify a toolbar, right-click it and choose Customize. To display or hide a toolbar, right-click any toolbar and then choose the name of the desired toolbar.

Formula bar

Provides an area for entering and editing values, formulas, and text. To insert a formula, select the desired cell and then use the keyboard. As you type, the formula is displayed in the formula bar. Click the Enter button **D** to accept the formula, or click the Cancel button **E** to delete it and start over. To create a formula based on one of Excel's built-in functions, click the Insert Function button **A**. Use the Name box on the left to assign descriptive names to selected cells.

Task panes

Provide shortcuts for performing common tasks. Click the down arrow in the upper-right corner to switch to a different task pane, such as New Worksheet, Research, Clipboard, or Clip Art.

Workbook navigation

To activate a worksheet, click its tab at the bottom of the program window. If the desired tab is hidden, display it by using the scrolling buttons.

Status bar

Provides information and instructions for the active worksheet. You can use the status bar to perform quick calculations on a range of values without modifying the worksheet. To do so, select the range, right-click anywhere on the status bar, and then choose the desired function (for example, Sum or Average). The result will appear in the status bar's calculation area.
