*Improving Comprehension 10-11* Andrew Brodie, 2008 Each book in this series features 15 comprehension passages Each passage is accompanied by three differentiated comprehension worksheets one sheet aimed at lower ability pupils one aimed at the middlerange and one for higher ability It is envisaged that teachers may well end up using two of the three worksheets with each child as progress is made The books cover a variety of genres and styles e.g. fiction non fiction poetry newspaper reports etc Some passages are taken from existing literature by well known authors and some are original pieces written by the authors The carefully worded questions include those with obvious answers to provide practice in writing clear well punctuated sentences and those with less obvious answers so that higher ability pupils will need to read between the lines Once completed the worksheets will also provide evidence for teachers when monitoring pupils progress and assessing their level The series addresses strands 7 and 8 of the new Primary Framework for literacy which refer to understanding interpreting engaging with and responding to texts and also strands 11 and 12 which are concerned with sentence structure punctuation and presentation *Reforming Reading, Writing, and Mathematics* S.G. Grant, 2012-12-06 In this book S.G. Grant reports his study of how four Michigan elementary school teachers manage a range of reforms such as new tests textbooks and curriculum frameworks in three different school subjects reading writing and mathematics Two significant findings emerge from his comparison of these responses teachers responses vary across classrooms even when they teach in the same school building and also across the reforms a teacher might embrace reforms in one subject area but ignore proposed changes in another This study of teachers responses to reading writing and mathematics reform and the prospects for systemic reform is part of a growing trend to look at the intersection of curriculum policy and teachers classroom practice It is unique in the way the author looks at teachers responses to multiple subject matter reforms uses those responses as part of an analysis of the recent move toward systemic reform and employs empirical findings as a means of examining the current movement toward systemic reform *Reforming Reading Writing and Mathematics* is important reading for researchers
