*Global and Asian Perspectives on International Migration* Graziano Battistella, 2014-09-12 This volume examines key aspects of the migration process that are particularly relevant in the Asian context. It looks into established concepts and theoretical propositions that have found application in other areas, particularly in the West, and explores their validity and relevance in understanding the realities of migration in Asia. *Global and Asian Perspectives on International Migration* features the perspectives of scholars from Asia and other parts of the world as well as diverse backgrounds. It presents a variety of forms, directions, policies, and institutions, including circular and temporary migration, the management of cultural diversity, the gender perspective on migration in North America, Europe, and Asia, returning migrants, migration governance in the ASEAN economic community, and the determinants of migration. In conclusion, the book explores migration transition in Asia and revisits select theories in light of recent evidence. With its dialogic approach to migration in Asia by renowned authors from various regions and disciplines, this book will serve as a valuable resource to policy makers in research and academia, civil society, international organizations, and the private sector.

**Aromas of Asia** Hannah Gould, Gwyn McClelland, 2023-10-12 A uniquely powerful marker of ethnic gender and class identities, scent can also overwhelm previously constructed boundaries and transform social sensory realities within contexts of environmental degradation, pathogen outbreaks, and racial politics. This innovative multidisciplinary volume critically examines olfaction in Asian societies with the goal of unlocking its full potential as an analytical frame and lived phenomenon. Featuring contributions from international scholars with deep knowledge of the region, this volume conceptualizes Asia and its borders as a dynamic transnationally connected space of olfactory exchange. Using examples such as trade along the Silk Road, the diffusion of dharmic religious traditions out of South Asia, the waves of invasion, colonization, and forced relocation that shaped the history of the continent, and other sensory highways of contact, the contributors break down essentializing olfactory tropes and reveal how scent functions as a category of social and moral boundary marking and boundary breaching within, between, and beyond Asian societies. Smell shapes individual, collective, and state-based memory as well as discourses about heritage and power. As such, it suggests a pervasive and powerful intimacy that contributes to our understanding of the human condition, mobility, and interconnection. In addition to the editors, the contributors to this volume include Khoo Gaik Cheng, Jean Duruz, Qian Jia Shivani Kapoor, Adam Liebman, Lorenzo Marinucci, Peter Romaskiewicz, Saki Tanada, Aubrey Tang, and Ruth E. Toulson.
