Shipping News ,2004 **Skills for Human Development** Lesley Powell,Simon McGrath,2019-03-15 Focusing on
 reimagining the purpose of vocational education and training VET and grounded in the reality of a small cohort of young
 South Africans and an institution seeking to serve them Skills for Human Development moves beyond the inadequacies of the
 dominant human capital orthodoxy to present a rich theoretical and practical alternative for VET Offering a human
 development and capability approach it brings social justice to the forefront of the discussion of VET s purpose at the
 national institutional and individual levels In doing so this book insists that VET should be about enlarging peoples
 opportunities to live a flourishing life rather than simply being about narrow employability and productivity It argues that
 human development approaches while acknowledging the importance of work in its broadest sense offer a better way of
 bringing together VET and development than the current human capital inspired orthodoxy Offering a transformative vision
 for skills development this book Considers the potential contribution skills development could make to broader human
 development as well as to economic development Points to an alternative approach to the current and flawed deficit
 assumptions of VET learners Presents for the first time an alternative evaluative frame for judging VET purpose and quality
 Presents a timely account of current vocational and education training that is high on the agenda of international
 policymakers Taking a broad perspective Skills for Human Development presents a comprehensive and unique framework
 which bridges theory policy and practice to give VET institutions a new way of thinking about their practice and VET
 policymakers a new way of engaging with global messages of sustainable human development It is a vital resource for those
 working on the human development and skills approach in multiple disciplines and offers a grounding framework for
 international policymakers interested in this growing area *Papers* ,1949 **Africa Research Bulletin** ,2004
