Mindset: the Psychology of Success: Learn How Winners Achieve Growth and Freedom Jack Summer, 2015-12-15

Everybody is caught up in the rat race For centuries people have been led to believe that success is defined by having the most number of possessions Many cultures across the globe support the idea of success being a competition where one can only rise to the top by stepping on countless heads Unfortunately these notions of success are the ones that lead to the violent culture that we have today If you want to know what success really is then this is indeed the right book for you Success isn't something that can only be achieved by a few people Everybody has the capacity to become successful All it takes is taking time to know one's self One's own thoughts is where everything else starts thus it is impossible to achieve success by aimlessly joining a stressful and violent rat race Success happens when one acknowledges the power of his thoughts The best way to do this is learning exactly what goes on inside his head This is where the Psychology of Success begins
