Gators and Seminoles: A Football Rivalry for the Ages Kevin M. McCarthy, 2016-10-24 The University of Florida and Florida State University are two of the best institutions of higher learning in the third most populous state in our country. They cooperate in many academic ventures and have joint programs especially in the sciences. They do not, however, cooperate in athletic endeavors and in fact compete fiercely in all sports especially football. Since 1958 when they first started playing football against each other they have met 60 times twice in postseason bowl games one of which was for the national championship. The two teams have each had three Heisman Trophy winners and have won the national championship in Division I a total of 13 times five for Florida and eight for Florida State. This then is the story of one of this country's fiercest football rivalries complete with outstanding players and coaches as well as controversies. **Character Is Not a**

Statistic: the Legacy and Wisdom of Baseball's Godfather Scout Bill Lajoie Bill Lajoie, Anup Sinha, 2010-01-21 Bill Lajoie just had it. When it came to drafting ballplayers and building a World Series club few in baseball history can match his extraordinary success. The lessons of Lajoie's illustrious career and the brilliance of his philosophy are put to print in **Character is Not a Statistic**. After a playing career that fell achingly short of the major leagues Lajoie returned to Detroit to become a teacher in the mid 1960s. But his unyielding passion for baseball and desire to atone for a broken dream pulled him back to the game as a scout. From there he went on to build World Series Championships from scratch by finding players who possessed the very character he lacked as a young athlete. Starting as an area scout for the Cincinnati Reds in 1965 Lajoie later moved up the ladder with the Detroit Tigers and was the architect and general manager of their 1984 World Series crowning Lajoie would then be instrumental as an assistant GM for two more franchises who dominated their decades with championships and titles the 1990s Atlanta Braves and the 2000s Boston Red Sox. Perhaps no one alive has scouted more baseball over the last 50 years or has better stories to tell about finding the greats. Though the modern era has seen the depersonalization of scouting via statistics and radar gun readings Lajoie was immensely successful through five decades by emphasizing what a player had inside him. His belief in a player's humanity and character persists to this day. This book is not only a biography but a collection of great baseball stories and a manual for the next generation of fans and scouts alike. Lajoie tackles such controversial issues as the Moneyball movement the importance of a strong manager scouting for makeup making trades preventing pitching injuries running a farm system and ranking both the best general managers and scouting directors of the modern era. **Life on the Tenure Track** James M. Lang, 2005-05-12 Engaging and accessible **Life on the**

Tenure Track will delight and enlighten faculty graduate students and administrators alike. **Sales and Revenue Generation in Sport Business** David J. Shonk, James F. Weiner, 2021-10-20 Sales and Revenue Generation in Sport Business provides a comprehensive overview of the many ways in which sport organizations generate revenues across all avenues and segments of the industry. Readers will learn a practical approach to sales and how to apply the method for a successful career.
