Jenny Cargill, drawing on her experience of BEE over its 15 year history, presents an uncompromising and essential review of the policy, its results and the lessons that can be learnt. By drawing on case studies, Cargill challenges common perceptions of BEE and provides disquieting new evidence of policy doing the opposite of what it was designed to achieve. *Trick or Treat* is the first book to provide such a comprehensive yet accessible analysis of BEE ownership. *Backpacker*, 2002-09 *Backpacker* brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often. **Multivariate Statistics and Machine Learning** Daniel J. Denis, 2025-12-29 *Multivariate Statistics and Machine Learning* is a hands on textbook providing an in depth guide to multivariate statistics and select machine learning topics using R and Python software. The book offers a theoretical orientation to the concepts required to introduce or review statistical and machine learning topics and, in addition to teaching the techniques, instructs readers on how to perform, implement and interpret code and analyses in R and Python in multivariate data science and machine learning domains. For readers wishing for additional theory, numerous references throughout the textbook are provided where deeper and less hands on works can be pursued. With its unique breadth of topics covering a wide range of modern quantitative techniques, user friendliness and quality of expository writing, *Multivariate Statistics and Machine Learning* will serve as a key and unifying introductory textbook for students in the social, natural, statistical and computational sciences for years to come.
