### COVER LETTER

Dear Hiring Manager,

Joining the team at Target would not only align with my professional goals but also offer a stage to contribute meaningfully to your customer-centric ethos through my proven track record in sales and customer service.

At Rerun, a second-hand store with a diverse customer base, I spearheaded a team of eight, where we transformed productivity by 30% through the automation of workflows. This initiative not only streamlined internal processes but also allowed us to exceed our monthly sales targets consistently, at one point reaching the milestone of \$100,000. These measured achievements reflect my capacity to drive results while optimizing team performance, directly correlating with the expectations highlighted for the role at your esteemed company.

I am eager to discuss how my background, skills, and commitments to success could positively impact the Target team. Let's schedule a meeting to further examine how we can collaborate towards the continuous growth and excellence of your brand.

Sincerely,

Payton Webster

Team Lead

**Bridging Reading Aloud and Speech Production** Simone Sulpizio,Sachiko Kinoshita,2016-07-25 For decades human cognition involved in reading aloud and speech production has been investigated extensively a quote search of the two in google scholar produces about 83 000 and 255 000 results respectively This large amount of research has produced quite detailed descriptions of the cognitive mechanisms that allow people to speak or to read aloud a word However despite the fact that reading aloud and speech production share some processes generation of phonology and preparation of a motor speech response the research in this two areas seems to have taken parallel and independent tracks with almost no contact between the two The present Research Topic takes an initial step towards building a bridge that will link the two research areas as we believe that such an endeavour is essential for moving forward in our understanding of how the mind brain processes words To this aim we encourage contributions exploring the relation between speech production and reading aloud The questions the Research Topic should address include but are not limited to the following To what extent are speech production and word reading reading aloud similar Are there some shared

components and or mechanisms between the two process Is the time course of the supposed shared mechanisms activation similar in the two processes How does the different input conceptual vs orthographic interact with the types of information that reading and speaking share semantic and phonological knowledge articulatory codes How does a difference in the input affect the supposed common stages of processing i e phonological encoding and articulatory planning and execution We welcome any kind of contribution e g original research article review opinion that answers the above or other questions related to the Topic
