The tablet is positioned on a green, textured surface that resembles a poker table. To the left of the tablet, there are several poker chips: a stack of blue chips with white and red markings, and a single red chip with white markings. In the foreground, a fan of US dollar bills is spread out, showing the "FIVE" and "ONE" denominations. The background is blurred, showing a wooden surface and some papers, suggesting a casino or gaming environment.

Sports Betting Nicolae Sfetcu, 2014-05-04 Sports betting is the general activity of predicting sports results by making a wager on the outcome of a sporting event. Aside from simple wagers, betting a friend that one's favorite baseball team will win its division for instance, or buying a football square for the Super Bowl, sports betting is commonly done through a bookmaker. Bookmakers generally offer two types of wagers on the winner of a sporting event: a straight up or money line bet, or a point spread wager. Moneylines and straight up prices are used to set odds on sports such as soccer, baseball, and hockey, the scoring nature of which renders point spreads impractical, as well as individual vs individual matches like boxing.
