**Applied Marketing** Rochelle Grayson, Daniel Padgett, Andrew Loos, 2021-06-21 Tomorrow's professionals need a practical customer-centric understanding of marketing's role in business and critical thinking skills to help their organizations succeed. *Applied Marketing 1st Canadian Edition* helps students learn practical modern marketing concepts appropriate for the principles of marketing course by applying them to the latest business scenarios of relatable brands like This Bar Saves Lives and GoPro. This comprehensive yet concise text is co-authored by Professors Rochelle Grayson and Daniel Padgett and practitioner Andrew Loos and blends current academic theory with an agency owner perspective to help students get an insider's look at how top businesses operate. With many Canadian-specific examples created specifically for this course, students can relate concepts learned in the classroom to marketing topics and events taking place in their backyard.

**Research and Development Management** Tugrul Daim, Jisun Kim, Kenny Phan, 2017-05-23 This book introduces readers to essential technology assessment and forecasting tools demonstrating their use on the basis of multiple cases. As organizations in the high-tech industry need to be able to assess emerging technologies, the book presents cases in which formal decision-making models are developed, providing a framework for decision-making in the context of technology acquisition and development. Applications of different technology forecasting tools are also discussed for a range of technologies and sectors, providing a guide to keep R&D organizations abreast of technological trends that affect their business. As such, the book offers a valuable theoretical and practical reference guide for R&D managers responsible for emerging and future technologies.

**Multi-Agent Systems and Agreement Technologies** Nick Bassiliades, Georgios Chalkiadakis, Dave de Jonge, 2021-01-04 This book constitutes the revised post-conference proceedings of the 17th European Conference on Multi-Agent Systems EUMAS 2020 and the 7th International Conference on Agreement Technologies AT 2020 which were originally planned to be held as a joint event in Thessaloniki, Greece, in April 2020. Due to the COVID-19 pandemic, the conference was postponed to September 2020 and finally became a fully virtual conference. The 38 full papers presented in this volume were carefully reviewed and selected from a total of 53 submissions. The papers report on both early and mature research and cover a wide range of topics in the field of autonomous agents and multi-agent systems.

**Computational Modelling in Industry 4.0** Irfan Ali, Prasenjit Chatterjee, Ali Akbar Shaikh, Neha Gupta, Ali AlArjani, 2022-02-12 This book addresses the different problems, practices, challenges, and opportunities in sustainable resource management with the help of decision-making techniques to showcase the relevance of computational modelling approaches in sustainable management and Industry 4.0. It aims to address the inherent complexity of managing ecosystems, particularly with respect to involvement of multi-stakeholders, lack of information, and uncertainties. Critical analyses are made to point out the need for and propose a call to a new way of thinking about sustainable resource management. This book will be useful for academicians, researchers, and industrialists in the field of industrial and production engineering.
