**Digital Media in Today's Classrooms** Dawn Wilson,Katie Alaniz,Joshua Sikora,2016-12-09 Educators who engage with today s students appreciate the impact digital media has on the lives of our younger generations Learners of today consume create and publish multimedia content continuously using a variety of devices such as cell phones tablets and computers They generate original and innovative products through programs apps and the Internet as a means of communicating and representing their lives ideas and feelings Unfortunately not all students understand how to apply media literacy or media safety and many lack knowledge of how to truly analyze media content for its value in society Today s educators must learn to harness the enthusiasm students have for digital media content that uses a combination of text images audio animation and video into daily lessons in order to enhance student interest engagement motivation and achievement in classroom environments This book addresses these vital considerations thereby empowering teachers and students to benefit from the application of digital media in their classrooms both as a compelling assessment tool and as an engaging teaching strategy

**Information Literacy for Today's Diverse Students** Alex Berrio Matamoros,2018-11-21 This book helps students from diverse backgrounds and with various learning styles to master the material they learn with these practical examples for librarians teaching higher education information literacy Cultural influences in students lives often tied to aspects of their background such as ethnicity national origin socioeconomic status gender and religion play a large role in determining how they learn Learning styles additionally differ among students making it difficult to know how to best support all students This book introduces academic instruction librarians to a differentiated instruction DI approach that will help them to offer students a choice of how to engage with course content assess their understanding of the material and demonstrate mastery of the material to the instructor allowing students to actively participate in their education It explains various instructional techniques used in DI and provides detailed step by step examples for implementing educational technology tools supporting each technique Accompanying the examples are tips for overcoming known challenges in implementation and best practices for successful adoption of the techniques Readers will understand how to begin using the most popular types of educational technology tools for academic information literacy instruction     *Implementing an Inclusive Staffing Model for Today's*

*Reference Services* Julia K. Nims,Paula Storm,Robert Stevens,2013-11-26 Reference service remains a core function of modern libraries However how and where we provide assistance has evolved with changing technologies and the shifting habits and preferences of our users One way libraries can provide the on demand in person assistance while managing and developing new services and resources that will benefit current and future users is to reconsider how their reference points and services are staffed and adopt a staff based reference model The authors staff members at Eastern Michigan University chose to address this by implementing an inclusive reference model in which staff and student assistants are trained to

answer certain levels of reference questions while working at the reference desk and at other service points The result was that librarians became more available to work with students who needed in depth assistance and users were able to get simple questions answered throughout the library Similar training for all staff and student assistants who work in the library results in better service more accurate answers and improved interdepartmental communication In Implementing an Inclusive Staffing Model for Today s Reference Services they describe step by step how to transition from the traditional librarian staffed reference desk to an inclusive reference model where non MLS personnel are equipped and empowered to answer reference questions wherever these questions might be asked Users ask questions of staff at all service points not just at the Reference Desk It is vitally important that those who work at circulation periodicals maps archives and other public service points be trained in how to answer certain reference questions When this is accomplished users who have simple questions will not have to make useless treks to the Reference Desk Topics covered include Recognizing that nearly all staff answer reference questions but few are trained to do so documenting the necessity for a change in reference model gaining buy in from all interested parties librarians non MLS staff and administrators determining the optimal staffing level creating training materials and schedules monitoring the quality of reference service supervising staff evaluating the new model using multiple methods Additionally each chapter contains practical resources such as checklists forms and sample materials and other usable features to support readers as they implement the inclusive reference model The book describes in detail the process of transforming traditional reference into a model that transcends departmental and job title boundaries is focused on the user and allows librarians to better utilize their time and talents and include non professional staff in their reference services
