Mpu Monaguña's Sumanasāntaka Peter Worsley, S. Supomo, Thomas Hunter, Margaret Fletcher, 2013-07-15

Mpu Monaguña's early thirteenth century epic poem Sumanasāntaka is a vernacular rendering of K lid sa's story of Prince Aja and Princess Indumat told in the Raghuva. In it the poet exploits his source narrative to describe and comment on the Javanese world of his times. In Mpu Monaguña's Sumanasāntaka the authors offer an edited text and translation of Mpu Monaguña's epic kakawin and extensive commentary on the editing of the manuscripts and history of the poem and its story, the relationship between the Old Javanese poem and K lid sa's Raghuva, the way in which the poem imagines the lived environment of ancient Java in the early thirteenth century and Balinese painted representations of the story of Prince Aja and Princess Indumat.

Economic Analysis of the Digital Economy Avi Goldfarb, Shane M. Greenstein, Catherine Tucker, 2015-05-08 There is a small and growing literature that explores the impact of digitization in a variety of contexts but its economic consequences surprisingly remain poorly understood. This volume aims to set the agenda for research in the economics of digitization with each chapter identifying a promising area of research. Economics of Digitization identifies urgent topics with research already underway that warrant further exploration from economists. In addition to the growing importance of digitization itself digital technologies have some features that suggest that many well studied economic models may not apply and indeed so many aspects of the digital economy throw normal economics in a loop. Economics of Digitization will be one of the first to focus on the economic implications of digitization and to bring together leading scholars in the economics of digitization to explore emerging research.
