traditional textbooks but that allow the creating of more fun and interesting projects Using timers moving images using cursor control keys and adding images to programs are not important computer science concepts but are explained in simple terms to let beginners use them Only a few specific projects are described here The preference is that students on their own or with guidance from a teacher or other mentor will design their own projects Learner selected projects are both more fun and more motivating than projects required by a text book *Books In Print 2004-2005* Ed Bowker Staff,Staff Bowker, Ed,2004
