Microsoft Power Point 2015 Training Manuals:

Proceedings of the 2nd UPY International Conference on Education and Social Science (UPINCESS 2023) Ari Kusuma Wardana, 2023-12-31 This is an open access book Technology has had a huge impact on education and social dynamics around the world Since the introduction of information and communication technologies ICTs such as the internet smartphones and social media much has changed in the way we learn and interact with others In education technology has enabled students and teachers to access more diverse and engaging educational resources With internet access students and teachers can access educational resources from all over the world and learn about various topics and disciplines In addition technology also enables distance learning which allows students and teachers to connect from different locations However there are also negative impacts of using technology in education For example excessive use of social media and the internet can cause concentration disorders and addiction in students In addition too much reliance on technology can also reduce students ability to think critically and solve problems independently In social dynamics technology has allowed us to connect with people from all over the world and paved the way for greater collaboration and cultural exchange However technology has also brought negative impacts on social dynamics such as the spread of fake news or hoaxes cyberbullying and social media addiction In this regard technology can be a very useful tool if used wisely and with proper understanding of its impact Therefore to support this Universitas PGRI Yogyakarta was hold an international conference and Call for Papers The 2nd UPY International Conference on Education and Social Science UPINCESS The Impact of Technology on Education and Social Dynamics on September 27 2023 The conference aims to discuss in depth about the impact of technology on education and social dynamics as well as finding appropriate solutions and strategies to minimize its negative impact and maximize its benefits Experts researchers and practitioners in the field of education and technology from around the world can share their knowledge and experience in this conference and can encourage collaboration and innovation in this field

MULTI APPROACH IN STUDY Dr. Aditya Narayan and Dr. Muthmainnah, **Advancing Online Teaching** Kevin Kelly, Todd D. Zakrajsek, 2023-07-03 The goal of teaching online is fundamentally the same as teaching face to face facilitating the learning of all students to the greatest extent possible This book differs from other books on online teaching in that in the process of offering guidance on course design and planning developing outcomes and appropriate engaging activities managing the workload and assessment the authors pay explicit attention throughout to the distinct and diverse needs of students and offer effective strategies to accommodate them in a comprehensive and inclusive way by using the principles of Universal Design for Learning By following those principles from the outset when planning a course all students will benefit and most particularly those whom the research shows have the greatest achievement gaps when taking online courses males first generation and low income students those from underrepresented minority groups the academically underprepared students with disabilities and those with limited online access or lacking readiness for online learning Beyond

good planning and design Kelly and Zakrajsek offer ideas for creating inclusive course environments and activities such as using culturally appropriate content and making it accessible in multiple formats They also share methods to foster faculty learner interaction and increase personal connections with students and among students through group activities or learning communities which are so critical to motivation and success Faculty new to online teaching as well as more experienced readers will find a wealth of practical guidance on developing and honing both fully online and blended courses and as importantly a wealth of proven ideas to help the new generation of students with diverse needs to succeed Medical Visualization and Applications of Technology Paul M. Rea, 2022-09-08 This edited book explores the use of technology to enable us to visualize the life sciences in a more meaningful and engaging way It will enable those interested in visualization techniques to gain a better understanding of the applications that can be used in visualization imaging and analysis education engagement and training The reader will also be able to learn about the use of visualization techniques and technologies for the historical and forensic settings The reader will be able to explore the utilization of technologies from a number of fields to enable an engaging and meaningful visual representation of the biomedical sciences We have something for a diverse and inclusive audience ranging from healthcare patient education animal health and disease and pedagogies around the use of technologies in these related fields The first four chapters cover healthcare and detail how technology can be used to illustrate emergency surgical access to the airway pressure sores robotic surgery in partial nephrectomy and respiratory viruses The last six chapters in the education section cover augmented reality and learning neuroanatomy historical artefacts virtual reality in canine anatomy holograms to educate children in cardiothoracic anatomy 3D models of cetaceans and the impact of the pandemic on digital anatomical educational resources **Multidisciplinary Approach in Research Area (Volume-6)** Chief Editor- Biplab Auddya, Editor- Ramesh Banothu, Dr. C.
