## **Middle School Advisory Curriculum:**

**Advisory** John P. Galassi, Suzanne Allen Gullede, Nancy Dailey Cox, 1998 Advisory groups have played an essential role in improving the school climate and conditions for young adolescents in schools How middle school decision makers go about the process of designing or re designing an advisory program needs to be considered A discussion is presented of the background information that helps define advisories It describes some essential elements in the design of an advisory program proposes strategies for planners to use in facilitating decision making and explores possible future directions and alternative strategies for achieving the goals of advisory programs Chapter 1 looks at the impetus and chronology of advisory programs Chapter 2 presents a nomenclature to facilitate a discussion about advisory programs The decision making process described in Chapter 3 presents a card sorting activity that allows the planner to articulate their preconceived notions about potential goals activities and outcomes of an advisory program Chapter 4 suggests that students need for personal and social guidance may be addressed in ways other than what has traditionally been called advisor advisee Considering alternative ways can enhance the processes of planning collaborative decision making and creative construction that can be the key to success for a program Contains 103 references JDM *The Perceptions and Understandings of Advisory by Middle School Students Included in the Curriculum Revision Process* Laurie E. Beauvais, 2016 During early adolescence children experience development in four major areas physical cognitive social emotional and sensory motor As a result of all of these simultaneous changes the middle school years are often considered the most turbulent developmental years of adolescence and have a profound impact on teaching and learning The middle school concept embraces the uniqueness of adolescence and provides a model for addressing the needs of middle school students Three preeminent educational reform initiatives Turning Points 2000 This We Believe 2003 and Breaking Ranks in the Middle 2006 addressed the challenge of meeting the needs of adolescents by recommending beliefs practices characteristics and strategies specifically focused on the middle school student One area of prominence in these reform documents is personalized learning which includes the implementation of advisory programs in the middle school Advisory programs are driven by the primary purpose of ensuring each child is well known by at least one adult Studies have shown that schools have a difficult time planning implementing and sustaining this element of the middle school concept The focus of this qualitative study was to investigate middle school students perceptions and understandings of advisory as a means to utilize the insight gained to improve the advisory program at the researcher s school and to provide other middle schools with pertinent data to support their programs Through a phenomenological approach the researcher sought to derive meaning from an experience as described by the individuals who have experienced it *Beyond Measure* Patricia E.
