Military Ethics An Introduction With Case Studies

Anthony E. Hartle

Military Ethics An Introduction With Case Studies:

Military Ethics Stephen Coleman, 2012-09-06 This book provides an introduction to the real life ethical issues faced by those serving in modern military forces With its focus on the practical problems facing those in positions of command it is of particular relevance to prospective military officers at military academies The book is also appropriate for Ethics of War and Military Ethics courses at non military undergraduate programs in philosophy and ethics The book includes more than fifty specially selected case studies many previously unpublished These cases enable students to examine in real and understandable situations the ethical problems which military personnel face in modern operations

Case Studies in Ethics for Military Leaders William Rubel, 2006 **Case Studies in Military Ethics** William Rubel, George R. Lucas, 2005

Routledge Handbook of Military Ethics George Lucas, 2015-05-22 The Routledge Handbook of Military Ethics is a comprehensive reference work that addresses concerns held in common by the military services of many nations It attempts to discern both moral dilemmas and clusters of moral principles held in common by all practitioners of this profession regardless of nation or culture Comprising essays by contributors drawn from the four service branches Army Navy Air Force and Marine corps as well as civilian academics specializing in this field this handbook discusses the relationship of ethics in the military setting to applied and professional ethics generally Leading scholars and senior military practitioners from countries including the US UK France China Australia and Japan discuss various national cultural views of the moral dimensions of military service With reference to the responsibilities of professional orientation and education as well as the challenges posed by recent technological developments this handbook examines the difficulties underpinning the fundamental framework of military service This book will be of much interest to students of military studies war theory ethics philosophy sociology war and conflict studies and security studies

Utilitarianism and the Ethics of War William H. Shaw, 2016-02-15 This book offers a detailed utilitarian analysis of the ethical issues involved in war Utilitarianism and the Ethics of War addresses the two basic ethical questions posed by war when if ever are we morally justified in waging war and if recourse to arms is warranted how are we permitted to fight the wars we wage In addition it deals with the challenge that realism and relativism raise for the ethical discussion of war and with the duties of military personnel and the moral challenges they can face In tackling these matters the book covers a wide range of topics from pacifism to armed humanitarian intervention from the right of national defense to pre emptive or preventive war from civilian immunity to the tenets of just war theory and the moral underpinnings of the rules of war But what is distinctive about this book is that it provides a consistent and thorough going utilitarian or consequentialist treatment of the fundamental normative issues that war occasions Although it goes against the tide of recent work in the field a utilitarian approach to the ethics of war illuminates old questions in new ways by showing how a concern for well being and the consequences of our actions and policies shape the moral constraints to which states and other actors must adhere This book will be of much interest to

students of the ethics of war just war theory moral philosophy war and conflict studies and IR Case Studies in Military Ethics for Military Leaders W. Rick Rubel, 2009 Previously published as Case studies in military ethics **Military Space Ethics** Nikki Coleman, 2022-02-14 As space develops as a potential war fighting domain so does the need to have ethical scrutiny Since the 1960s there have been core space treaties that together with national laws provide a clear framework for both military and civilian space activities yet ethical questions still exist around space warfare Is it appropriate to respond kinetically on earth to a threat in space Does just war theory apply in space and does the remoteness of space lower or raise the threshold for armed conflicts Will the creation of new space forces start a space arms race New combat environments also create a number of new challenges including whether future war in space will be conducted by robots or space marines and how the dual use nature of satellites will impact on their permissibility as targets in any future conflict As technologies become more widespread space may be threatened by the likes of non state groups and rogue states leading to a need to inhibit their movement in space In space differences are magnified resources are especially scarce risks are multiplied and specialized medical care is a world away The physical and psychological distance between combatants in modern warfare applies also to space and the impacts of remote warfare need to be considered including the potential for moral injury and psychological trauma With greater military power comes greater responsibility and this responsibility is carried out at the end of a chain of decisions and technologies This book's relevancy will not be lost on students at service academies and staff colleges in preparing them for the task of emphasizing ethical responsibility in space to those whom they will lead in the future **Making the Military Moral** Don Carrick, James Connelly, David Whetham, 2017-09-08 This book offers a critical analysis both theoretical and practical of ethics education in the military In the twenty first century it has become increasingly important to ensure that the armed forces of Western and other democracies fight justly and behave ethically The good soldier has to be not only professionally skilled but morally intelligent At a time of relentless media scrutiny the publicising of incidents of morally and legally unacceptable behaviour such as the gross mistreatment of prisoners and the torture of suspected terrorists can do much to undermine the credibility of those who claim to hold the moral high ground in any particular conflict Written by an international team of academic theorists and military practitioners this volume provides inter disciplinary insights into the present state and the future of ethics education in the militaries of Western democracies The contributors critically address the central question of whether such education is sufficient to prepare members of the armed forces to face the peculiar challenges of conflict environments that are now primarily wars among the people in which the opposing combatants may have little or no regard for human life and fail to discriminate between soldiers and civilians when choosing their targets Drawing lessons from recent examples of unethical conduct this original book offers insightful and constructive advice both theoretical and practical as to how situations can be improved and on the means that could and should be employed towards this end This book will be of much interest to students of military studies ethics and

international relations **Social Theory and Practice** ,2018 **Pursuing Moral Warfare** Marcus Schulzke,2019-03-01

During combat soldiers make life and death choices dozens of times a day These individual decisions accumulate to determine the outcome of wars This work examines the theory and practice of military ethics in counterinsurgency operations Marcus Schulzke surveys the ethical traditions that militaries borrow from compares ethics in practice in the US Army British Army and Royal Marines Commandos and Israel Defense Forces and draws conclusions that may help militaries refine their approaches in future conflicts The work is based on interviews with veterans and military personnel responsible for ethics training review of training materials and other official publications published accounts from combat veterans and observation of US Army focus groups with active duty soldiers Schulzke makes a convincing argument that though military ethics cannot guarantee flawless conduct incremental improvements can be made to reduce war s destructiveness while improving the success of counterinsurgency operations **Moral Issues in Military Decision Making** Anthony E. Hartle,2004 Much has changed in warfare in recent years with America now dominant on the international scene and terrorism the new enemy In light of these changes the need for moral grounding in military actions is a more pressing concern than ever When it was originally published *Moral Issues in Military Decision Making* reflected the concerns posed by nuclear stalemate and the lessons of Vietnam In that highly praised work Anthony Hartle outlined the essential elements of the Professional Military Ethic created for American military forces In this new edition he reexamines the moral foundations for America s military leadership in the post 9 11 era Considering world affairs since the first edition the Gulf War Bosnia Afghanistan Iraq 9 11 and the emergence of the United States as an unrivaled military power Hartle explains how these events have raised ethical issues that differ dramatically from those of the Cold War by the war on terrorism homeland defense asymmetric warfare the proliferation of American military interventions and the UN s role in peacekeeping operations Using meticulously analyzed case studies twice as many as in the first edition he considers such moral dilemmas as torture challenging superior officers use of overwhelming force and responding to fire in the presence of civilian shields In this revision Hartle examines further the status of professional military ethics in light of current affairs changes in the articulation of military values and recent research In a new chapter on human rights he relates moral principles directly to values embedded in the Constitution and argues that overwhelming American military power cannot succeed unless it is accompanied by the moral force of the values it seeks to protect difficulties of applying conventional laws of war and human rights doctrine in military operations Hartle convincingly shows that national security is as much about the preservation of moral principles as it is about the protection of America s citizens and borders His book demonstrates that the American military must continue to observe those principles in order to be effective in its primary mission **The Parameters of Military Ethics** Lloyd J. Matthews,Dale E. Brown,1989 Essays omhandlende den etiske dimension i det milit re liv

Military Ethics An Introduction With Case Studies: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous compelling novels captivating the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the engaging narratives that have captivated audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
