Journalistic Practice Yngve Benestad Hågvar, Harald Hornmoen, Jørgen Alnæs, 2025-11-28 Narrative Theory in Journalistic Practice provides innovative analytical frameworks for examining journalistic narratives in today's digital multimodal media landscape. The volume expands beyond traditional models focused on linear texts to address contemporary formats across multiple platforms. Through empirical analyses of genres such as immersive long form stories, live news reports, social media news, podcasts, and still images, the book explores the dual function of journalistic narratives: they are suited to engage readers in both trivial and complex events and issues, but will also advance certain interpretations of reality and downplay others. The book conveys a critical and constructivist view on narratives, showing how journalistic stories contribute to shaping people's understanding of reality, but also how media users play an active role in interpreting the narratives. The volume will interest students and scholars of journalism, media studies, and narrative studies. It is intended for use by graduate students as well as by established researchers.

Democracy in the Disinformation Age Regina Luttrell, Lu Xiao, Jon Glass, 2021-05-23 In this book, established researchers draw on a range of theoretical and empirical perspectives to examine social media's impact on American politics. Chapters critically examine activism in the digital age, fake news, online influence, messaging tactics, news transparency, and authentication, consumers' digital habits, and ultimately the societal impacts that continue to be created by combining social media and politics. Through this book, readers will better understand and approach with questions such as: How exactly and why did social media become a powerful factor in politics? What responsibilities do social networks have in the proliferation of factually wrong and hate-filled messages? Or should individuals be held accountable? What is the state of the art of computational techniques for measuring and determining social media's impact on society? What role does online activism play in today's political arena? What does the potent combination of social media and politics truly mean for the future of democracy? The insights and debates found herein provide a stronger understanding of the core issues and steer us toward improved curriculum and research aimed at a better democracy.

Democracy in the Disinformation Age: Influence and Activism in American Politics will appeal to both undergraduate and postgraduate students as well as academics with an interest in areas including political science, media studies, mass communication, PR, and journalism.

Taking Back Trump's America Peter Navarro, 2022-09-20 As seen on Tucker Carlson, As heard on Mark Levin. In this follow-up to the breakout bestseller *In Trump Time*, Peter Navarro explains why Trump lost the White House in 2020 and how he will win it back in 2024, and none too soon. Steve Bannon, the chief architect of Trump's 2016 win, describes *Taking Back Trump's America* as a brass-knuckled insider's account of the merciless 2020 fall and miraculous 2024 rise of the White House of Trump. In Peter Navarro's telling, he was in all of the rooms where it happened. Trump's fall may be laid squarely at the feet of a coterie of incompetent and disloyal bad personnel inside the White House. They continually sought to undermine the commander in chief they putatively served and included everyone from Attorney General Bill Barr, Treasury Secretary Steve Mnuchin, and National Economic Council Directors Gary Cohn and Larry Kudlow.
