Light 4: 00:00:00 - 00:00:01

And not but not least, the challenge of reproducing color consistency across different devices and platforms with the wide range of the human visual system from smartphones to laptops to monitors. It can be difficult to ensure that an image looks the same on all of them. This is where color management systems come in.

Text 5: 00:00:00 - 00:00:01

Our entire understanding of the universe based what we can touch is light from objects unfortunately for some. The whole thing is the universe is light from the big bang that we can still see with radio waves, something, microwave and even when that we say what we're really seeing is the light bouncing off surfaces and is coming from light [...]

Light 6: 00:00:00 - 00:00:01

[...] When it comes to displaying the image, systems called color trapping convert the data into a format that the display can understand.
