**How Canadians Communicate V** David Taras, Christopher Waddell, 2016-03-15 Fewer Canadians than ever are lacing up skates swimming lengths at the pool practicing their curve ball and experiencing the thrill of competition However despite a decline in active participation Canadians spend enormous amounts of time and money on sports as fans and followers of sporting events and sports culture Never has media coverage of sports been more exhaustive and never has it been more driven by commercial interests and the need to fuel consumerism on which corporate profits depend But the power plays now occurring in the arena of sports are by no means solely a matter of money At issue as well in the media capture of sports are the values that inform our daily lives the physical and emotional health of the population and the symbols so long central to a sense of Canadian identity Writing from a variety of perspectives the contributors to this collection set out to explore the impact of the media on our reception of and attitudes toward sports to unpack the meanings that sports have for us as citizens and consumers Some contributors probe the function of sports as spectacle the escalation of violence controversies over drug use and the media's coverage of tragic deaths while others shed light on the way in which the media serve to transform sports into a vehicle for the expression of identity and nationalism The goal is not to score points but to prompt critical discussion of why sports matter in Canadian life and culture and how they contribute to the construction of identity

**Men's Health Workout War** Jim Cotta, 2015-04-07 Competition motivates men And scientific research proves that competition and rewards motivate people to stick to exercise and diets Former Los Angeles Lakers strength coach Jim Cotta harnesses men's passion for one upmanship with an innovative get in shape program in Men's Health Workout War This book features a highly effective 60 day exercise and diet program broken up into quarters and an overtime round The unique hook is that it makes the fitness instruction much more effective by turning it into a friendly weight loss war that uses locker room style trash talking and cash prizes to drive dramatic results Basketball great Shaquille O'Neal who penned the book's foreword used a shirts off competition against Charles Barkley on national television to spur his own body transformation and Cotta was his weight loss coach That gave Cotta the idea to build a blueprint for grassroots fitness competitions complete with multiple contest formats and advice on using social media to build excitement

Klein,2016-12-14 Defining Sport Conceptions and Borderlines is not about the variations of usage of the term sport It is about the concept the range of activities in the world that we unite into one idea sport It is through the project of defining sport that we can come to understand these activities better how they are similar or different and how they relate to other human endeavors This definitional inquiry and the deeper appreciation and apprehension of sport that follows is the core of this volume Part I examines several of the standard and influential approaches to defining sport Part II uses these approaches to examine various challenging borderline cases These chapters examine the interplay of the borderline cases with the definition and provide a more thorough and clearer understanding of

both the definition and the given cases This work is not meant to be the definitive or exhaustive account of sport It is meant to inspire further thought and debate on just what sport is how it relates to other activities and human endeavors and what we can learn about ourselves through the study of sport This book will be of interest to scholars in philosophy of sport history communications sociology psychology sports management cultural studies and physical education
