book stresses that longevity is not determined solely by our genes. Instead, it proposes a holistic approach to health and wellness, highlighting the importance of a balanced diet, regular exercise, emotional well-being, and positive social relationships. The author argues that we have the power to take control of our own health and well-being. Through research and personal anecdotes, the book explores a wide range of topics related to longevity, from the benefits of a plant-based diet to the importance of social connection and community.
