

ONE VISIT OR TWO?

In many cases, a 99213 or 99214 can be billed with a Medicare wellness visit or preventive medicine visit as long as the physician or billing clinician documents the extra work done for the evaluation and management service. (If patients are sick enough to justify a 99215, it's unlikely clinicians can also fit in a wellness or preventive medicine visit.)

	Patient's status or medical history includes:	The HPI says things like:	Exam findings indicate:	Assessment and plan include:
Bill only preventive or wellness code	• In good health, with no chronic problems (basically "well"). • Stable chronic illnesses (not addressed during visit). • Would not have come in based on their symptoms, except that they had an annual exam scheduled.	• Patient is well at home and has no complaints. • Patient needs prescription refills. • Chronic illness listed but not described, or described only in a few words.	• Exam findings are normal or unchanged from previous exams.	• No change in treatment; scheduled screenings; refilled prescriptions. • Conditions listed but not evaluated or managed.
Bill 99213 (or 99203 for new patients) with preventive or wellness code	• An acute, uncomplicated illness at time of visit. • An active, stable medical problem. • Two minor problems. <i>Remember to document significant, additional work beyond wellness visit requirements.</i>	• Patient describes onset of acute, uncomplicated problem, or two minor problems. OR • Status of existing chronic conditions significantly reviewed, not just listed.	• Exam findings are normal or unchanged from previous exams. OR • There may be an unexpected abnormal finding on exam.	• Order labs; refill existing prescriptions. • Follow up in 3-6 months or less. • Treatment for acute problem. <i>Remember to show management of chronic problem.</i>
Bill 99214 (or 99204 for new patients) with preventive or wellness code	• New problem with an uncertain prognosis, e.g., acute complicated illness. • A significant exacerbation of one or more chronic illnesses. • Scheduled follow-up visit for multiple significant but stable problems. <i>Remember to show extra work to justify 99214 vs. 99213.</i>	• New headache, dizziness, abdominal pain, or dyspnea on exertion. • Multiple stable chronic problems significantly reviewed (current problems — not medical history). <i>Remember to review status of stable problems and describe symptoms of poorly controlled problems.</i>	• Exam findings are normal or unchanged from previous exams. OR • There may be an unexpected abnormal finding on exam. OR • Patient's physical condition may have deteriorated since previous visits.	• Changes to treatment; x-ray or lab tests for diagnosis (not screening); referral to a consultant. • Review of treatment plan for multiple problems with no changes if complex, multiple medications, and moderate risk of morbidity. • Follow up on findings/patient's condition may be scheduled in following weeks.
Bill E/M office visit only	• So acutely ill or with so many exacerbated chronic medical problems that you do not have time to also do a wellness visit.	• Patient has had a severe increase in symptoms.	• Markedly abnormal exam.	• Reschedule physical exam; initiating treatment changes or ordering immediate diagnostic tests; close follow up scheduled.

Genetic Counseling and Preventive Medicine in Post-War Bosnia Philip C. Aka, 2020-09-29 Genetic Counseling and Preventive Medicine in Post War Bosnia offers a unique new perspective to longstanding debates on healthcare reforms in Bosnia In this penetrating analysis Philip C Aka argues that twenty five years after the ethnic war that shook Bosnia and Herzegovina to its foundations healthcare reforms are a function of preventive medicine defined as genetic counselling backed by tobacco and alcohol control At its core the book offers a fresh examination of healthcare reforms in Bosnia set in the multidisciplinary field of bioethics supplemented by comparative health studies and comparative human rights By offering an extensive list of electronically accessible literature on healthcare accessible in the public domain Aka delivers an exemplar of research possibilities in the Information Age

Integrative Preventive Medicine Richard H. Carmona, Mark Liponis, 2018 For most clinicians the science and evidence for many integrative therapies is largely unknown or considered suspect Most physicians don't have time to learn integrative approaches and aren't sure what to recommend or which approaches have merit or improved outcomes In Integrative Preventive Medicine clinicians have easy access to the best practices in integrative medicine and expectations for outcomes The current state of the science is also presented Authors are leaders in their fields with decades of expertise and leadership in their fields
