Connecting America Barry Leonard, 2010-11 Broadband is the great infrastructure challenge of the early 21st century. Broadband is a foundation for economic growth job creation global competitiveness and a better way of life. The number of Americans who have broadband at home has grown from 8 million in 2000 to nearly 200 million last year. But 100 million Americans do not have broadband at home. In early 2009 Congress directed the FCC to develop a National Broadband Plan to ensure that every American has access to broadband capability. This plan must also include a strategy for achieving affordability and maximizing use of broadband. The plan presented here ensures that the entire broadband ecosystem networks devices content and applications is healthy. Illus

Towards Cognitive Autonomous Networks Stephen S. Mwanje, Christian Mannweiler, 2020-10-12 Learn about the latest in cognitive and autonomous network management. *Towards Cognitive Autonomous Networks* Network Management Automation for 5G and Beyond delivers a comprehensive understanding of the current state of the art in cognitive and autonomous network operation. Authors Mwanje and Bell fully describe today's capabilities while explaining the future potential of these powerful technologies. This book advocates for autonomy in new 5G networks arguing that the virtualization of network functions render autonomy an absolute necessity. Following that the authors move on to comprehensively explain the background and history of large networks and how we come to find ourselves in the place we're in now. *Towards Cognitive Autonomous Networks* describes several novel techniques and applications of cognition and autonomy required for end to end cognition including Configuration of autonomous networks Operation of autonomous networks Optimization of autonomous networks Self healing autonomous networks. The book concludes with an examination of the extensive challenges facing completely autonomous networks now and in the future.
