The Present Law and Practice Relating to Letters Patent for Inventions (Classic Reprint)

H. Fletcher Moulton, 2016-12-09 Excerpt from The Present Law and Practice Relating to Letters Patent for Inventions The English Law of Letters Patent is of the greatest interest both from the legal and the commercial point of View It was the forerunner and the model of the Patent Laws of all countries in the past it has greatly helped to build up the commercial supremacy of this Country and on the certainty and justness of this law and its administration depends to day the willingness of capital to assist in developing new inventions But the subject is one whose treatment presents great difficulties to the author since the majority of the reported decisions really turn on questions of fact The Courts have quite properly realised this and the practice of quoting numerous authorities on such questions as subject matter and infringement has greatly decreased Nevertheless the citation of a really apposite decision is often of the greatest value and the just appreciation of prior decisions is also of great assistance to those who have to advise on questions relating to Letters Patent I have therefore attempted to give in a digested and classified form the decisive points in all such cases as may be likely to be of assistance for either of these purposes This work presents the law and practice in regard to Letters Patent as it stood at the end of 1912 Although the basic principles of this law have remained unchanged recent legislation has greatly affected the practice The Patents Act of 1907 has also introduced many fresh problems for the practitioner and some of the most important of these as for example those referring to restrictive conditions in licences a point to which public attention has been recently called have not yet had the benefit of judicial elucidation In such cases the legal and practical applications of the new provisions have been fully discussed with a View to assisting those who may have to advise thereon About the Publisher Forgotten
