The PhotoReading Whole Mind System Paul R. Scheele, 1999 Discover the secrets of Reading at 25 000 words per minute *Legalism* Paul Dresch, Judith Scheele, 2015 Mainstream historians in recent decades have often treated formal categories and rules as something to be used by individuals as one might use a stick or stone and the gains of an earlier legal history are often needlessly set aside Anthropologists meanwhile have treated rules as analytic errors and categories as an imposition by outside powers or by analysts leaving a very thin notion of practice as the stuff of social life Philosophy of an older vintage as well as the work of scholars such as Charles Taylor provides fresh approaches when applied imaginatively to cases beyond the traditional ground of modern Europe and North America Not only are different kinds of rules and categories open to examination but the very notion of a rule can be explored more deeply This volume approaches rules and categories as constitutive of action and hence of social life but also as providing means of criticism and imagination A general theoretical framework is derived from analytical philosophy from Wittgenstein to his critics and beyond and from recent legal thinkers such as Schauer and Waldron Case studies are presented from a broad range of periods and regions from Amazonia via northern Chad Tibet and medieval Russia to the scholarly worlds of Roman law Islam and Classical India As the third volume in the Legalism series this collection draws on common themes that run throughout the first two volumes Legalism Anthropology and History and Legalism Community and Justice consolidating them in a framework that suggests a new approach to rule bound systems **Natural Brilliance** Paul R. Scheele, 2000 This book helps readers release their genius their Natural Brilliance and use it to overcome barriers that have blocked them in the past It frees readers to move in the direction accomplishing hopes and dreams Paul R Scheele is a recognised authority in three leading edge technologies or human development Accelerated Learning Neruo Linguistic Programming and Preconscious Processing As a result he is able to discover processes of the human brain and present them in an easy to understand fashion **The Christian Union** Henry Ward Beecher, 1888 **Words on Cassette, 2002** R R Bowker Publishing, 2002 **Citizen of the Shadows** Paul Friedland, Robert N. Hornick, 2025-10-07 A monumental piece of work an amazing accomplishment and a pleasure to read David Michaelis author of Eleanor the bestselling biography of Eleanor Roosevelt One of the most notorious German spies of the twentieth century Lothar Witzke lived a life that reads like a thriller Convicted of espionage in 1918 he was the only German spy sentenced to death by the United States during World War I After the war he was pardoned by President Calvin Coolidge only to be later accused of responsibility for one of the most spectacular acts of sabotage in US history the Black Tom munitions depot explosion After being repatriated to Germany Witzke lived in Latin America and China as a German expat and later joined the Nazi party He ran espionage squads in Great Britain during World War II and became a prominent businessman in Hamburg after the war He was killed in Hamburg in 1962 possibly by an East German agent as payback for suspected double agent work on behalf of the British With Citizen of the Shadows the first full biography of Witzke Paul

Friedland and Robert Hornick trace Witzke's morally complicated life and show readers how an infamous spy thrived in the interwar years and after. They probe his trial, conviction and pardon and analyze whether Witzke was really involved in the Black Tom explosion. In doing so, the authors uncover that many of the details of Witzke's life long assumed to be true were lies.
