WALL STREET JOURNAL BESTSELLER Unlock your originality and unleash your unique talents with this simple guide from the acclaimed author of Think Like a Rocket Scientist We say some people march to the beat of a different drummer But implicit in this cliché is that the rest of us march to the same beat We sleepwalk through life find ourselves on well worn paths that were never ours to walk and become a silent extra in someone else's story Extraordinary people carve their own paths as leaders and creators They think and act with genuine independence They stand out from the crowd because they embody their own shape and color We call these people geniuses as if they're another breed But genius isn't for a special few It can be cultivated This book will show you how You'll learn how to discard what no longer serves you and discover your first principles the qualities that make up your genius You'll be equipped to escape your intellectual prisons and generate original insights from your own depths You'll discover how to look where others don't look and see what others don't see You'll give birth to your genius the universe denter you were meant to be

**The Complacent Class** Tyler Cowen, 2017-02-28 A Wall Street Journal and Washington Post Bestseller Tyler Cowen's blog Marginal Revolution is the first thing I read every morning And his brilliant new book The Complacent Class has been on my nightstand after I devoured it in one sitting I am at round the clock Cowen saturation right now Malcolm Gladwell Since Alexis de Tocqueville restlessness has been accepted as a signature American trait Our willingness to move take risks and adapt to change have produced a dynamic economy and a tradition of innovation from Ben Franklin to Steve Jobs The problem according to legendary blogger economist and best selling author Tyler Cowen is that Americans today have broken from this tradition we're working harder than ever to avoid change We're moving residences less marrying people more like ourselves and choosing our music and our mates based on algorithms that wall us off from anything that might be too new or too different Match.com matches us in love Spotify and Pandora match us in music Facebook matches us to just about everything else Of course this matching culture brings tremendous positives music we like partners who make us happy neighbors who want the same things We're more comfortable But according to Cowen there are significant collateral downsides attending this comfort among them heightened inequality and segregation and decreased incentives to innovate and create The Complacent Class argues that this cannot go on forever We are postponing change due to our near sightedness and extreme desire for comfort but ultimately this will make change when it comes harder The forces unleashed by the Great Stagnation will eventually lead to a major fiscal and budgetary crisis impossibly expensive rentals for our most attractive cities worsening of residential segregation and a decline in our work ethic The only way to avoid this difficult future is for Americans to force themselves out of their comfortable slumber to embrace their restless tradition again
