**Digital China: Metaverses For Business** Ashley Dudarenok, 2023-03-20 While the hype surrounding the metaverse has waned its importance from a tech perspective hasn't. This book will help all those who have wondered what a metaverse is, what it's for, how much it's worth, which companies are creating it, which countries are ahead of the game, and how businesses are using metaverses and Web3. This book is for brands that want to understand the next iteration of the internet, how to use it now and in the future to connect with customers, and how to future-proof your business. There are different perceptions of and approaches to the metaverse and Web3 in different countries. This book helps you to understand those differences and the impact they may have on your company.

**QUOTES FROM THE BOOK** The metaverse is the next iteration of the internet we have been building for the last 40 years but in a 3D realm vs the text, picture, and video web we have today. When it arrives in the next 5-10 years, it will encompass all facets of our lives from school to work to play and everything in between. And from now to then, there will be many rocky roads as the world and China figure out how to actually build such a solution and all the rules needed to properly operate it.

Alvin Wang, Graylin China President, Global VP of Corporate Development at HTC: Some people believe there should be one metaverse where many virtual worlds exist inside that one mega metaverse. But this is the most idealized version of how society or the internet operates. Judging by what tech companies are doing at this early stage, it's clear that they want to keep their walled gardens up for as long as they can.

Nina Xiang, Author of *Parallel Metaverses*: New revenue streams and business models present a whole new level of possibility for brands to reach their customers and fans. It's not just about monetary conversions; it's another touchpoint and becomes a layer of experiential, reimagined, and immersive experience to further enhance a brand's story. Co-creation and community activation will play a significant role in delivering to the community.

Olivia Lee, Founder of Livvium, Web3 Strategist and Digital Fashion Collector: **EDUCATION 6.0**

KHRITISH SWARGIARY, 2026-01-01 As the author of *Education 6.0: Envisioning the Symbiotic Future of Learning and Innovation*, I am profoundly humbled and inspired to present this work at a pivotal moment in human history. We stand on the threshold of an era defined by unprecedented technological convergence where artificial intelligence, quantum computing, bio-digital interfaces, and regenerative systems are reshaping not only industries but the very essence of how we learn, create, and coexist with intelligent machines.

*Education 6.0*, as envisioned in these pages, represents a bold, forward-looking paradigm that extends beyond the human-centric resilience of *Education 5.0* and *Industry 5.0*. It embraces a symbiotic future in which humans and advanced technologies co-evolve ethically, sustainably, and equitably to address grand challenges like climate crises, skill obsolescence, and global inequities. This book emerges from my deep passion for educational transformation, informed by years of research into emerging technologies, pedagogy, and policy. Drawing on historical trajectories from ancient gurukuls and hierarchical rote systems to the digital integrations of *Education 3.0* and *4.0*, I propose *Education 6.0* as a holistic framework aligned with the nascent visions of *Industry 6.0*.

Central to this is the original **LIKEMS** framework: Leadership, Innovation, Knowledge, Skills, Industry, Manufacturing, Maker-Centered Practices, Entrepreneurship, and

Sustainability designed to cultivate sovereign learners who lead ethical innovation harness symbiotic intelligence and steward planetary resources Written amid rapid advancements as of late 2025 this volume synthesizes empirical evidence real world implementations and speculative yet rational projections to guide educators policymakers researchers and innovators My hope is that it sparks collaborative action toward learning ecosystems where technology amplifies human potential without diminishing agency empathy or well being Education 6 0 is not merely an adaptation to change it is a call to co create a harmonious innovative world for generations to come KHRITISH SWARGIARY AKA KS Luminar Assam India Jan 2026
